

# USING FAVOURITES LISTS

---

Favourite Lists are lists of your favourite channels. You can create and change the lists yourself, adding and removing channels as you wish. You can have an unlimited number of favourite channels but they must be grouped into no more than four lists. For example, one Favourite List could have 100 channels and a second list only 10. Or all four lists could have 50 channels each.

- When you make a Favourite List active, the **Program Guide** displays *only* the channels in that list. Also, the receiver skips channels that are not on the list when you use the remote control Up or Down arrow button to change channels.
- The **All Chan** Favourite List contains all the channels. But, if you have set up the **Program Guide** to hide adult channels and the receiver is locked, *no* list displays such channels. You cannot make any changes to the **All Chan** list.
- The **All Sub** Favourite List contains all the channels in your subscription. But, if you have set up the **Program Guide** to hide adult channels and the receiver is locked, *no* list displays such channels. You *cannot* make any changes to the **All Sub** list, except by changing your subscription.
- You can tune the receiver to a channel whether or not that channel is on the active Favourite List by entering the channel number using the remote control number pad buttons. This will also automatically return the receiver to the **All Chan** list.
- If you choose a program using **Theme Categories**, the receiver tunes to the channel for that program whether or not that channel is on the active Favourite List.
- Each Favourite List has a unique color in the **Program Guide**. You can give each list a name. When you first get the receiver, the four lists are named **List 1**, **List 2**, **List 3**, and **List 4**. The lists are empty until you add channels to them.

### MAKING A FAVOURITES LIST ACTIVE

If the **Program Guide** is open, press the Guide button to select the next Favourite List. Press the Guide button again to scan through all the available lists.

**Note:** This works *only* if you have added channels to the Favourite Lists. If you have not created any Favourite Lists, pressing the Guide button switches the receiver between the **All Chan** and **All Sub** lists.
