

Your handy
reference guide.

Finding your HD channels.

CHANNEL TYPE	CHANNEL RANGE
Popular Networks	1201 – 1208 1220 – 1224
Movies	1300 – 1340
Sports	1400 – 1498
News, Knowledge and Kids	1500 – 1567
Lifestyle and Specialty	1570 – 1663
International	642 – 899 2156 – 2779
Music and Radio	900 – 982

You can also check out our online channel search tool to search by network name or the channel number from your previous provider.

Visit bell.ca/searchchannels to get started.

Changing your TV programming.

1. Log in to MyBell at mybell.ca
2. In the TV section, click the **View details** drop down menu, then select **Change my programming**
3. Add the channels or packages you want. Your new programming should be active within 4 hours

Changing your Wi-Fi password.

1. In your web browser, type <http://192.168.2.1> in the address bar and press **enter**.
If prompted, enter your administrator password. If you haven't changed the password, the default is: **admin**
2. Click **Wi-Fi settings** from the left menu
3. Update your network name (SSID) and password in the field identified and click **Save**
