

KODIAK PTT Central Admin Tool User Guide

Release 9.0.3

July 2019

STATEMENT OF CONFIDENTIALITY / DISCLAIMER

The information disclosed herein is confidential and proprietary to Motorola Solutions, Inc., and is being furnished under a valid license agreement. This document may not be disclosed to third parties without the prior written consent of Motorola Solutions, Inc. The recipient of this document shall respect the security status of the information.

Copyrights

Laws in the United States and other countries preserve for Motorola certain exclusive rights for copyright computer programs, including the exclusive right to copy or reproduce in any form the copyright computer program. Accordingly, any copyright Motorola computer programs contained in the Motorola products described in this document may not be copied or reproduced in any manner without the express written permission of Motorola. Furthermore, the purchase of Motorola products shall not be deemed to grant either directly or by implication, estoppel or otherwise, any license under the copyrights, patents or patent applications of Motorola, except for the rights that arise by operation of law in the sale of a product.

Restrictions

The software described in this document is the property of Motorola. It is furnished under a license agreement and may be used and/or disclosed only in accordance with the terms of the agreement. Software and documentation are copyright materials. Making unauthorized copies is prohibited by law. No part of the software or documentation may be reproduced, transmitted, transcribed, stored in a retrieval system, or translated into any language or computer language, in any form or by any means, without prior written permission of Motorola.

Accuracy

While reasonable efforts have been made to assure the accuracy of this document, Motorola assumes no liability resulting from any inaccuracies or omissions in this document, or from the use of the information obtained herein. Motorola reserves the right to make changes to any products described herein to improve reliability, function, or design, and reserves the right to revise this document and to make changes from time to time in content hereof with no obligation to notify any person of revisions or changes. Motorola does not assume any liability arising out of the application or use of any product or circuit described herein; neither does it convey license under its patent rights of others.

Trademarks

MOTOROLA, MOTO, MOTOROLA SOLUTIONS, and the Stylized M Logo are trademarks or registered trademarks of Motorola Trademark Holdings, LLC and are used under license. All other trademarks are the property of their respective owners.

1. Introduction and Key Features

The Push-to-Talk (PTT) service provides instant communication to individuals and talkgroups at the push of a button. The Central Admin Tool (CAT) helps in managing a corporate user's contacts and talkgroups.

The following is a brief description of key features of the Central Admin Tool:

PTT Users Management – Allows you to manage the PTT user profile such as name, email ID and permission type.

Talkgroups Management – Allows you to manage Talkgroups including, assigning avatar, Talkgroup scanning, supervisory override, permission to the talkgroup members for call initiation, and receive and in call accessibility. There are three types of talkgroups that you can manage: standard, dispatch, and broadcast groups.

External Users Management – Allows you to manage users external to the corporation.

Integrated Users Management – Allows you to manage the users of types, such as Integrated Mobile, Integrated Tracking, and Integrated Web.

Interop Connections Management – Allows you to manage the users between the Interop and PTT.

User Sets – Allows you to manage the user sets to PTT Users, Talkgroups, or Integrated Users.

2. Getting Started

This section describes the steps you must take to start using the Central Admin Tool.

This section is organized as follows:

2.1. Prerequisites

- [Prerequisites](#)
- [Required Browsers](#)
- [Hardware Requirements](#)
- [Ensuring Correct Display of the Website](#)
- [Log into the Central Admin Tool](#)
- [Forgot Password](#)
- [Take a Tour](#)
- [Landing Page](#)

2.1.1. Required Browsers

The Central Admin Tool requires one of the following browsers. You must ensure that the browser you are using meets the following requirements:

- Apple Safari 8 or higher
- Google Chrome 45 or higher
- Microsoft Internet Explorer (IE) 11
- Microsoft Edge 25 or higher
- Mozilla Firefox 41 or higher

2.1.2. Hardware Requirements

Your PC must have the following recommended hardware to launch the Central Admin Tool.

- Recommended RAM size 8 GB.

2.1.3. Ensuring Correct Display of the Website

Enabling Pop-ups

The Central Admin Tool opens in a new browser window. Be sure to enable pop-ups to access the tool.

Reset Zooming

To display the Central Admin Tool properly, make sure that the browser you are using has a zoom setting of 100%. To reset the zoom to 100%, press **CTRL+0** (zero) on your keyboard.

2.2. Log into the Central Admin Tool

Depend on your service provider, you will be provided with the log in method as mentioned below:

1. Please check with your service provider for access to the Central Admin Tool.

Or

You will be communicated with the log in ID and Password along with the sign in link to access.

Or

An account activation mail along with the link to sign in to the Central Admin Tool will be sent to your registered email id. Clicking the link will take you to the choose password page of the Central Admin Tool as shown below.

KODIAK Corporate Administration Tool English

Choose a password

Password*

Confirm Password*

Continue

Version: 09.000.00.00a
Dispatch works on a computer with Windows 8.1 or Windows 10

Password must have:
At least 6 characters
At least one lowercase letter (a-z)
At least one uppercase letter (A-Z)
At least one number (0-9)
At least one of these special characters @\$%^&+=

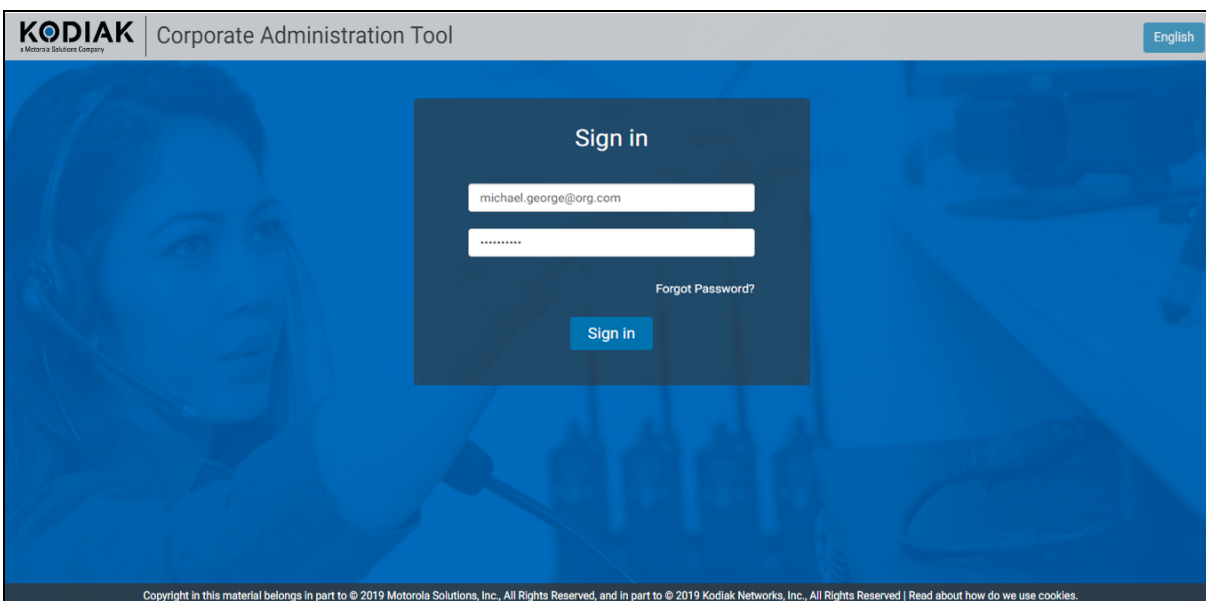

Copyright in this material belongs in part to © 2019 Motorola Solutions, Inc., All Rights Reserved, and in part to © 2019 Kodiak Networks, Inc., All Rights Reserved | Read about how do we use cookies.

Choose Password

When you click on the link, a cookies page is displayed. Select your preferences. It will ask you to choose the password. The password must meet the minimum requirements of password policy of Central Admin Tool. If the password chosen do not match the password specification, then an error will be displayed. The password must meet the following minimum requirements:

1. At least six characters
2. At least one lower case letter between a to z
3. At least one upper case letter between A to Z
4. At least one number between 0 to 9
5. At least one of these special characters @\$%^&+=

Once you choose the password, a Central Admin Tool sign in page is displayed as shown below.

Sign in - Central Admin Tool

2.2.1. Forgot Password

If you have forgotten your password, then you can reset it by clicking on the “Forgot Password” link on the sign in page of the Central Admin Tool. Follow the steps below to reset the password:

1. From the sign in page of Central Admin Tool, click Forgot Password.

Forgot Password

2. A dialog box will be shown to enter the email id associated with your account.

Enter Registered Email Id - Forgot Password

3. Enter the registered email id and click Send Email button.
4. If you did not receive the mail, click Send it again.
5. Click the link received in your email id.
6. Enter the new password to reset the password.Cookies

Whenever you sign in to the Central Admin Tool, a pop-up block will be displayed to choose your browser preferences. When you sign in Central Admin Tool using a browser, that uses cookies, it remembers your registered sign in, password details, and language preferences. It is mandatory to accept the cookies to use Central Admin Tool. Click “What are cookies?” to know about the cookies used by the tool.

2.3. Take a Tour

Take a tour shows the basic features and demo of the application. A Take a Tour page is displayed when you signed into the Central Admin Tool. Clicking on **View Tour** takes you to the basic operation of the central Admin Tool. Use the **Next** button to view the demo and their introductions.

You can click the Close  icon to cancel the Take a Tour view.

If you do not want Central Admin Tool to display the Take a Tour page, whenever you sign in, then select the checkbox “**Don’t show again**” and click the **Close**  icon.

2.4. Landing Page

A landing page is displayed when you sign in to the Central Admin Tool as shown below.

Landing Page

The management tool landing page displays the Contact & Talkgroup Management and License Management as shown in the previous image. If your corporation does not have subscriber(s) with the license pack(s) then the License Management will not be displayed. Select Contact & Talkgroup Management or click the **Go** button below the description of the tool. For License Management, refer to License Management Tool User Guide.

3. Navigate the Central Admin Tool

The generic screen layout of the Central Admin Tool contains three common navigational features (Header Area, Navigation Area, and the Work Area). The header area is at the top, the navigation area is located to the left, and the work area is in the center.

This section is organized as follows:

- [Header Area](#)
- [Menu](#)
- [My Account](#)
- [Settings](#)
- [Header Area Icons](#)
- [Navigation Area](#)
- [PTT Users](#)
- [PTT Users Icons](#)
- [Talkgroups](#)
- [Talkgroup Icons](#)
- [Avatars](#)
- [External Users](#)
- [External Users Icon](#)
- [Integrated Users](#)
- [Integrated Users Icons](#)
- [Interop Users](#)
- [Interop Users Icons](#)
- [Work Area Navigation](#)
- [Search](#)
- [Using Parameters](#)
- [Common Icons](#)

The screenshot shows the main interface of the KODIAK PTT Central Admin Tool. The top header includes the KODIAK logo, the title 'Contact & Talkgroup Management', and user information: Corporate ID 8886 and Corporate Name ACME. On the left, a vertical navigation menu contains icons for PTT Users, Talkgroups, External Users, Integrated Users, Interop Connections, and User Sets. The main area is titled 'PTT Users' and shows a list of 2360 users. The list is paginated (Page 1 of 48) and includes a search bar. The table below shows the first few rows of the user list.

Name	Phone Number	Actions
1234123411	+1111222233	[Edit] [Down Arrow]

Central Admin Tool Main Screen

3.1. Header Area

The header area contains a Menu, Logo, My Account, Settings, as well as the Corporate ID and Corporate Name.

This screenshot shows the header area of the Corporate Administration Tool. It features the KODIAK logo, the title 'Corporate Administration Tool', and user information: Corporate ID 8886 and Corporate Name ACME. On the right side of the header, there are icons for a user profile and settings.

Header Area

3.1.1. Menu

Allows you to launch the License Management Tool (LMT). Please refer to the License Management Tool User Guide for more details.

- Home - Allows you to go back to the landing page.
- **License Management Tool** – Allows you to launch the License Management Tool application. License Management Tool will launch in the same window. The License Management Tool allows to view and manage the license packs for the following types of clients: Cross Carrier Standard, Cross Carrier PTT Radio, Dispatch, Integrated Mobile, Integrated Tracking, Integrated Web, Interop Talkgroup, Interop User, Wi-Fi Standard, and Wi-Fi PTT Radio. Please refer to the License Management Tool User Guide for more details.

The Home and CAT options will always be displayed. If you are entitled for LMT, then LMT option will be shown.

3.1.2. My Account

My Account allows you to exit the Central Admin Tool.

When you click the **Exit** option, a dialog box is displayed. “Do you want to exit Central Admin Tool?” Click **Exit** to exit the program or click **Cancel** to go back to your previous operation.

3.1.3. Settings

The settings are listed as follows:

- **Language** – Allows you to select the language, if another language is supported.
- **Max rows per pages** – Displays the number of rows to be shown per page in the work area. By default, the 50 contacts will be shown per page. You can change the number of contacts displayed up to 200 from the drop-down.

Note: For the purpose of this document, 200 contacts is considered as the number of rows displayed.

- **About** – Displays the version number of the product you are logged into.
- **Copyright** – Displays the product copyright details.
- **How do we use cookies** – Displays how do we use cookies to save user’s browsing preferences depend upon the server configuration.
- **Take a Tour** – Shows basic features and demo of the application.
- **Help** – Allows you to access various documents such as user guide when you click on the Help.

Note: Ensure to enable pop-ups in the browser to access the “Help” page.

3.1.4. Header Area Icons

The following table lists the Header Area icons you will see in the Central Admin Tool.

Name	Icons	Description
My Account		Click to exit the application.
Menu		Click to access any available associated applications, such as License Management Tool.
Settings		Click to access the Language setting, Max rows per page, About version, How do we use cookies, Take a tour, Copyright, and Help.

3.2. Navigation Area

The left pane of the Central Admin Tool is the navigation area. This area contains menus which provide quick navigation to the corporate data information such as “PTT Users”, “Talkgroups”, “External Users”, “Integrated Users”, “Interop Connections” and “User Sets” work areas.

CAT Navigation Area

3.3. PTT Users

The “PTT Users” work area displays the list of users within your corporation. You can click the ***PTT Users*** menu in the navigation area.

You can search for a PTT User Name, Phone Number, State, Client Type, Interop Feature and Permission. This area also has options to search for specific user parameters. For details, refer to the "[Search](#)" section of this document.

Name	Phone Number	Permissions	Client Type	State	Activation Code	Expiring On
Mike	+919999444442	Administrator and User	Handset PTT Radio	Provisioned	None	N/A
John	+919999666660	Administrator and User	Handset Standard	Provisioned	None	N/A

PTT Users Main Screen

The following user types are displayed in the “PTT Users” work area. PTT Users are identified with unique icons as described in the ["PTT Users Icons"](#) section of this document.

- Cross Carrier PTT Client
- Cross Carrier Standard
- Dispatch
- Handset PTT Radio
- Handset Standard
- Needs Attention
- Wi-Fi PTT Radio
- Wi-Fi Standard

In this work area, to select a single user, click the user row.

To select up to 200 users in a single instance, click the **Tools** icon and click the **Select All** check box. To select one or multiple users, click the **Tools** icon and click the check boxes associated with the users you want to select.

Note: By default, 50 users will be displayed. To view up to 200 users, change the “Max rows per page” from the Settings in the header.

3.3.1. PTT Users Icons

The following table lists the PTT Users icons you will see in the Central Admin Tool.

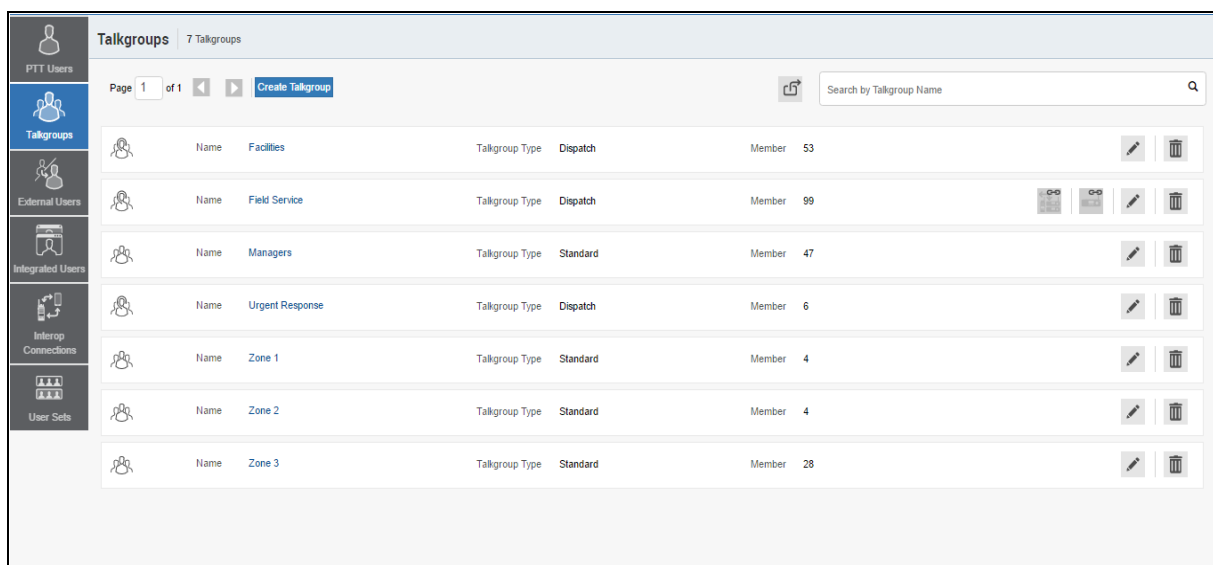

Name	Icons	Description
Cross Carrier Standard		This icon indicates a Cross Carrier Standard.
Cross Carrier Standard Warning		This icon indicates that a Cross Carrier Standard needs attention. Cross Carrier Standard typically need attention when there is no activation code.
Cross Carrier PTT Radio		This icon indicates a Cross Carrier PTT Radio.
Cross Carrier PTT Radio Warning		This icon indicates that a Cross Carrier PTT Radio needs attention. Cross Carrier PTT Radios typically need attention when there is no activation code.
Dispatch		This icon indicates the dispatch console or dispatch group in the list area and work areas.
Dispatch Warning		This icon indicates that a dispatch needs attention. Dispatch will typically need attention when there is no activation code.
Handset Standard		This icon indicates a Handset Standard.
Handset Standard Warning		This icon indicates that a Handset Standard needs attention.
Handset PTT Radio		This icon indicates a Handset PTT Radio.
Handset PTT Radio Warning		This icon indicates that a Handset PTT Radio needs attention.
Wi-Fi Standard		This icon indicates a Wi-Fi Standard.

Name	Icons	Description

Change In Call Permissions		This icon allows you to change or edit the in call permissions for a dispatch group type. Available options are as follows: Allow, Do not allow.
Dispatch Group		This icon indicates the dispatchers or dispatcher group in the list area and work areas.
Dispatch Group Warning		This icon indicates that a dispatch group needs attention. Dispatch Group will typically need attention when there is no activation code.
Talkgroup		This icon indicates a talkgroup in the list area and work areas.
Interop Talkgroup		This icon indicates a PTT Talkgroup on an Interop Console.
Standard Talkgroup		This icon indicates the standard talkgroup in the list area and work areas.

Name	Icons	Description
Standard Talkgroup Warning		This icon indicates that a standard talkgroup needs attention. Standard Talkgroup will typically need attention when there is no activation code.

3.4.2. Avatars

The following table lists the Avatar icons that you can assign to a Talkgroup to be displayed on the PTT Radio user type in the Central Admin Tool.

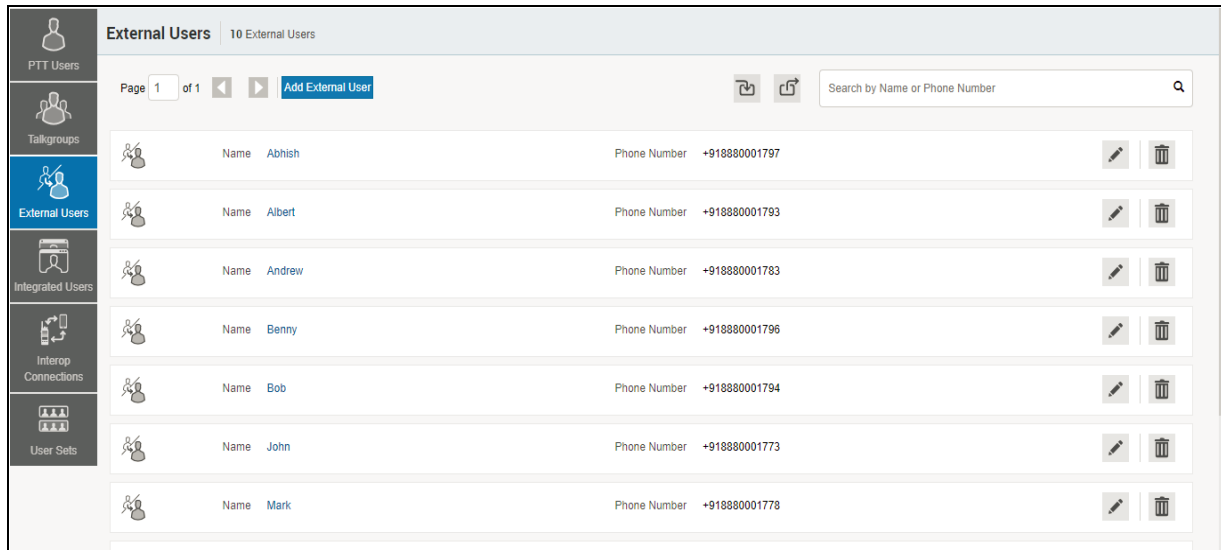

Name	Icons	Description
Default		The default icon associated with a Talkgroup.
Airplane		The airplane icon associated with a Talkgroup.
Book		The book icon associated with a Talkgroup.
Car		The car icon associated with a Talkgroup.
Construction		The construction icon associated with a Talkgroup.
Delivery		The delivery icon associated with a Talkgroup.
Desktop PC		The desktop PC icon associated with a Talkgroup.
Dispatcher		The dispatcher icon associated with a Talkgroup.
Driver		The driver icon associated with a Talkgroup.
Envelope		The envelope icon associated with a Talkgroup.
Field Service		The field service icon associated with a Talkgroup.
Flower		The flower icon associated with a Talkgroup.

Name	Icons	Description
Front Desk		The front desk icon associated with a Talkgroup.
Housekeeping		The housekeeping icon associated with a Talkgroup.
Laptop		The laptop icon associated with a Talkgroup.
Medical		The medical icon associated with a Talkgroup.
Notepad		The notepad icon associated with a Talkgroup.
PTT Phone		The PTT phone icon associated with a Talkgroup.
Room Service		The room service icon associated with a Talkgroup.
Security		The security icon associated with a Talkgroup.
Supervisor		The supervisor icon associated with a Talkgroup.
Telephone		The telephone icon associated with a Talkgroup.
Tree		The tree icon associated with a Talkgroup.
Truck		The truck icon associated with a Talkgroup.
Warehouse		The warehouse icon associated with a Talkgroup.
Worker		The worker icon associated with a Talkgroup.

3.5. External Users

The External Users work area displays the list of external Users outside of your corporation.

The External Users work area has options to search for a specific external user by Name or Phone Number. For details, refer to the "Search" section of this document.

External Users Main Screen

Icons are identified in the "External Users Icon" section of this document.

The following types of users are displayed in the External Users section:

- External Users

Click the **Add External Users** button to create a new External Users.

3.5.1. External Users Icon

The following table lists the External Users icon you will see in the Central Admin Tool.

Name	Icons	Description
External User		This icon indicates that a user is a different corporation.

3.6. Integrated Users

The Integrated Users work area displays the list of Integrated Users within your corporation.

The Integrated Users work area has options to search for a specific Users by Name or Phone Number or State or Type or Interop Feature or Permissions. For details, refer to the "Search" section of this document.

Integrated Users Main Screen

Icons are identified in the ["Integrated Users Icons"](#) section of this document.

The following types of users are displayed in the Integrated Users section:

- Integrated Mobile
- Integrated Tracking
- Integrated Web

3.6.1. Integrated Users Icons

The following table lists the Integrated Users icons you will see in the Central Admin Tool.

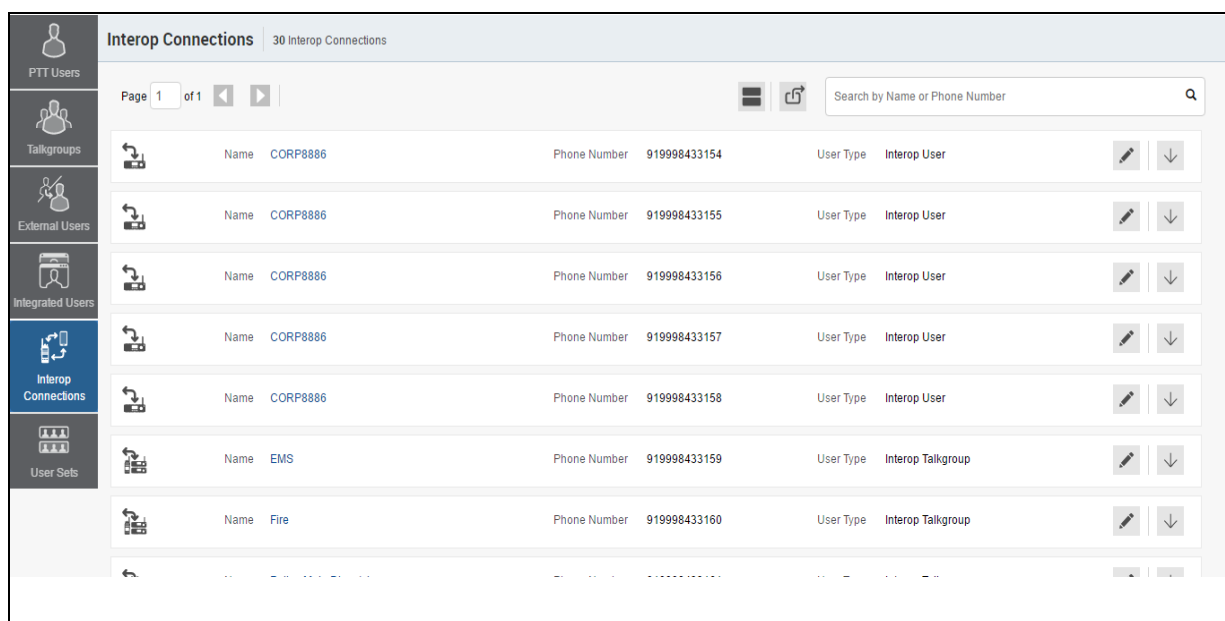

Name	Icons	Description
Integrated Mobile		This icon indicates an Integrated Mobile.
Integrated Mobile Warning		This icon indicates that an Integrated Mobile needs attention. Integrated Mobile users will typically need attention when there is no activation code.
Integrated Tracking		This icon indicates an Integrated Tracking.
Integrated Tracking Warning		This icon indicates that an Integrated Tracking needs attention. Integrated Tracking users will typically need attention when there is no activation code.
Integrated Web		This icon indicates an Integrated Web.

Name	Icons	Description
Integrated Web Warning		This icon indicates that an Integrated Web needs attention. Integrated Web users will typically need attention when there is no activation code.

3.7. Interop Users

The Interop Users work area displays the list of Interop users within your corporation.

The Interop Users work area has options to search for a specific Interop user by Name or Phone Number or State or Type or Linked or Permissions.

Interop Users Main Screen

Icons are identified in the "Interop Users Icons" section of this document.

The following types of users are displayed in the Interop Users section:

- Interop Radio
- Interop User
- Interop Talkgroup

3.7.1. Interop Users Icons

The following table lists the Interop Users icons you will see in the Central Admin Tool.

Name	Icons	Description
Interop Radio		This icon indicates the Interop Radio or Interop Talkgroup. This feature allows the interoperability between the KODIAK Push-to-Talk Over Cellular (PoC) system and Interop networks using the Interop Radio solution.
Link to Interop Talkgroup		This icon indicates a Link to Interop Talkgroup.
Interop Talkgroup		This icon represents a PTT Talkgroup on an Interop Console.
Interop User		This icon indicates an Interop User. There is no warning icon associated with the Interop User.
Interop feature enabled		This icon indicates that the Interop feature is enabled for the user.

3.8. Work Area Navigation

Users are listed alphabetically in the work area. You can navigate through the pages by using the arrows at the top-left of the page or type a page number in the text field. A maximum of 200 users can be displayed for each page.

Note: By default, 50 users will be displayed. To view up to 200 users, change the “Max rows per page” from the Settings in the header.

3.9. Search

You can search for a specific name in the work areas on the user interface of the Central Admin Tool.

Search by Name or Phone Number 🔍

Parameter Suggestions:

Search Screen

The search narrows down and shows matching results as you are typing. The search is not case-sensitive. The result is a list with the search string anywhere in the Name or Phone number.

Note: Special characters are filtered from the search string while searching for the User using its Phone Number.

You can search for PTT Users, External Users, Integrated Users and Interop Users by entering the Name or Phone number in the search box.

You can search for Talkgroups by entering the Talkgroup Name, type and Interop type in the search box.

To search the User Set, enter the name of the User Set in the search box.

3.9.1. Using Parameters

You can use the following parameters to narrow your search results. Select the desired parameter and begin typing. Not all parameters are available for every work area. These parameters are as follows:

- **Name** – Enter up to a 30-alpha numeric character name.
- **Phone Number** – Enter up to a 30-alpha numeric character number.
- **Client Type** – Click the drop-down and select the available options. Types are available based on the work area.
- **State** – Click the drop-down and select the available options: Active, Provisioned, or Suspended.
- **Permission** – Click the drop-down and select the available options: Corporate and Corporate and User.

3.10. Common Icons

The following table lists the common icons you will see in the Central Admin Tool.

Name	Icons	Description
Allow Location		Displayed when the Tools is clicked.
Allow Multimedia		Displayed when the Tools is clicked.
Allow Text		Displayed when the Tools is clicked.

Name	Icons	Description
Assign Contacts		Click to assign a contact.
Assign User Set		Click to assign a user set for a single PTT user.
Tools		Click to active multiple operations for multiple selections including change permission and generate activation codes.
Cancel or Close		Click to cancel or close the current operation.
Change Permission		Click to change type Administrator or Administrator and User. This icon is active in when Tools is clicked.
Close		Click to close the current window.
Close User Set		Click to close user sets for PTT Users, Talkgroups, External Users, Integrated Users and Interop users.
Collapse Details		Click to collapse the details for a single PTT User and Integrated Users.
Delete		Click to delete the record data.
Edit		Click to edit the record data.
Error		This icon indicates an unsuccessful operation. Click to close the error message.
Expand Details		Click to expand the details for a single PTT User and Integrated Users.
Export		Click to export all tabular data in CSV file format.

Name	Icons	Description
Import		Click to import External Users to the tool.
Generate Activation Code		Click to re-generate an activation code.
Generate Activation Codes		Click to generate activation codes for multiple selected users. This icon is active in Tools is clicked.
Show More for All		Click to show more for all record details.
Show Less for All		Click to show less for all record details.
Assign User Set		Click to manage the user sets for PTT Users, Talkgroups, External Users, Integrated Users and Interop users.
Next Page		Click to display the next page of records.
Previous Page		Click to display the previous page of records.
Save Name		Click to save the record.
Name Change Cancel		Click to cancel the name change.
Search		Displays in the search text box.
Send Email		Click to send an activation code using email.
Show Less		Click to show fewer record details.

Name	Icons	Description
Show More		Click to show more record details.
Users		This icon indicates a user.
Success		This icon indicates a successful operation.
User Set		Click to view the User Set that you are not a member of.
User Set Member		Click to view the User Set that you are a member of.
View Distribution		Click to view the User Set Distribution.
Go to Top		Click to go to top of the window.
Information		Click to view the information.
Copy/Paste		Click to copy/paste the talkgroup details from one PTT Radio to another PTT Radio user.

4. Manage PTT Users

The Manage PTT Users section describes how to manage the user profile in the work area (PTT Users, Talkgroups, External Users, Integrated Users, Interop Connections and User Sets using the Central Admin Tool (CAT).

PTT Users icons are identified in the "[PTT Users Icons](#)" section of this document.

For common icons, refer to the "[Common Icons](#)" section of this document.

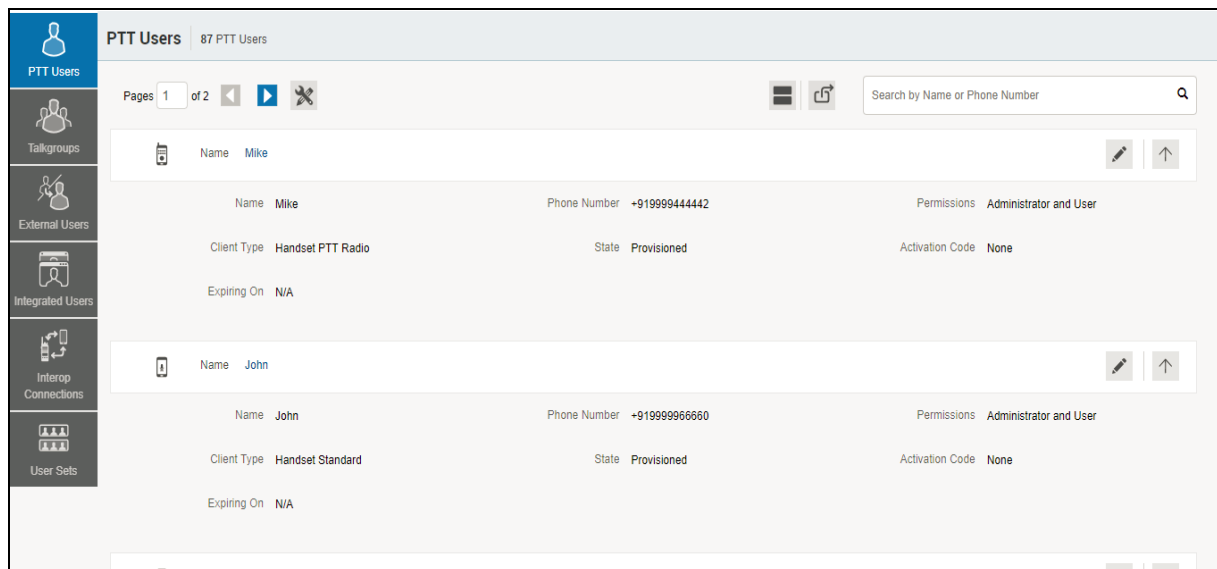

This section is organized as follows:

- [View a User](#)
- [Edit a User](#)
- [Re-Sync a User](#)
- [Generate Activation Codes](#)
- [Resend an Existing Generated Activation Code without Regenerating](#)
- [Manage Contacts](#)
- [Assign Contacts](#)
- [Remove Contacts](#)
- [Manage User Sets](#)
- [Add a User Set as Contacts to a User](#)
- [Remove a User Set from a User](#)
- [View User Set Members Associated with a User](#)
- [Manage Talkgroups](#)
- [Select Multiple Users](#)
- [Copy and Paste Talkgroup details](#)
- [Generate Activation Codes for Multiple Users](#)
- [Using the Export Operation](#)
- [Enable Features to PTT Users](#)
- [Enable feature to individual PTT user](#)
- [Enable features to multiple PTT users](#)
- [Change Client Type](#)
- [Enable Authorization for Remote Supervision Features](#)
- [Features Authorization](#)
- [Features](#)
- [Packages](#)
- [Device Info](#)
- [Messaging](#)
- [Automatic Location Publish Control](#)

- [Emergency](#)
- [Authorized User Features](#)

4.1. View a User

To view a user, click the **PTT Users** menu from the CAT navigation. The PTT Users main screen is displayed as shown below.

PTT Users Main Screen

Note: To edit the name, double-click the Name field and change the name as desired.

You can view the following information on clicking the **Show More for All** icon to view an individual PTT User details:

- Name
- Phone Number
- Client Type
- Permissions
- State
- Expiring On
- Email ID
- Activation Code

You can use the **Export** icon to export the page data in CSV format. For more details, see the ["Using the Export Operation"](#) section in this document.

You can use the search operation using specific parameters, refer to the ["Search"](#) section of this document.

To select one or multiple users, click the **Tools** icon and click the check boxes associated with the users you want to select.

4.2. Edit a User

To edit a single user, click the **Edit** icon associated with the user name from the work area. The PTT user profile is displayed.

The screenshot displays the 'PTT User Details' page for user Adrian. The page includes a sidebar with navigation options: PTT Users, Talkgroups, External Users, Integrated Users, Interop Connections, and User Sets. The main content area shows the user's profile with the following details:

- Name:** Adrian
- Phone Number:** +999920000091
- Client Type:** Dispatch
- Billing Number:** +91999999911
- State:** Provisioned
- Permissions:** Administrator and User
- Expiring On:** (empty field)
- Email ID:** rajan.das@motorolasolutions.com
- Activation Code:** (empty field)
- Authorized User:**

Below the profile details, there are sections for 'Contacts' (50), 'Talkgroups' (2), and 'Features'. A search bar is provided for finding contacts by name or phone number. The contacts table is shown below:

Name	Phone Number	Client Type
919605111273	+919605111273	External User
919605111274	+919605111274	External User
919605111275	+919605111275	External User

Single User Selection

The following details of a User profile is shown as follows:

- **Name** – Displays the name of the user. This field can be edited.
- **Phone Number** – Displays the number of the user. This field cannot be edited.
- **Billing Number** – Displays the billing phone number of the user. This field cannot be edited. For more information, refer to the "[Permissions](#)" section in this document.
- **Permissions** – Displays the corporation type permissions of the user. This field can be edited. For more information, refer to the "[Permissions](#)" section in this document.
- **State** – Displays the activation state of the user. This field cannot be edited. For more information, refer to the "[State](#)" section in this document.
- **Expiring On** – Displays the expiration date of the activation code. This field cannot be edited. For more information, refer to the "[Expiring On](#)" section in this document.
- **Client Type** – Displays the client type of the user. This field can be edited. For more information, refer to the "[Client Type](#)" section in this document.
- **Email ID** – Displays the email ID of the user. This field can be edited. For more information, refer to the "[Email ID](#)" section in this document.

- **Activation Code** – Displays the activation code of the user. This field cannot be edited. For more information, refer to the "[Activation Code](#)" section in this document.

You can use the **Show More for All** icon to view the details of all the users expanded at once.

The user's profile is shown on the top portion of the work area, which consists of the following information.

Billing Phone Number

The following types of clients are provisioned in the system in the form of license packs. Cross Carrier PTT Radio

- Cross Carrier PTT Standard
- Dispatch
- Integrated Mobile
- Integrated Tracking
- Integrated Web
- Interop Talkgroups
- Interop Users
- Wi-Fi Standards
- Wi-Fi PTT Radio

The billing system assigns a Billing Phone Number to these license packs. The system generates Pseudo Phone Numbers for each Billing Phone Number.

The Billing Phone Number cannot have PTT service and thus is not available in the work area.

In case, the user is not a license pack user, Phone Number and the Billing Phone Number are the same.

Permissions

Select the new users **Permission** from the drop-down.

You can manage Administrator or Administrator User types only. You are not allowed to manage Public user permissions. User permission can have the following values.

- **Administrator** – These users will only receive contacts and talkgroups from a corporate admin.
- **Administrator and User** – These users can receive contacts and talkgroups from a corporate admin and have the capability to define and manage their own contacts and talkgroups. They can make and receive calls outside the corporation.

State

The State field represents the user service status. It is assigned by the billing system and can have one of the following options.

- **Provisioned** – The user has signed up for a service but has not yet activated the client for use.
- **Activated** – The user has downloaded and activated the client and has the necessary configuration for the user to start using the service.
- **Suspended** – The user's service is currently suspended. The user can maintain their configuration, contacts, and talkgroups but cannot use the service.

Client Type

The Client Type represents the read-only information about the client type and are as follows:

- Cross Carrier PTT Radio
- Cross Carrier Standard
- Dispatch
- Handset PTT Radio
- Handset Standard
- Wi-Fi PTT Radio
- Wi-Fi Standard

Expiring On

The Expiring On is a system generated once the Generate Activation Code button is selected. The activation code typically expires within seven days from generation.

Email ID

Enter or Update the user e-mail in the Email ID field. The activation code is sent to this Email ID.

Activation Code

The clients other than Handset, Handset PTT Radio, Interop Radio, Integrated Users, and Interop Talkgroup need a special code for activation. This is called an activation code.

Interop User and Interop Talkgroup do not need an activation code and these clients will be in 'Active' state immediately after provisioning.

For Handset and Interop Radio clients, generating an activation code is optional and required only if the user wants to activate over the Wi-Fi network. An example of this would be a department store where there is no cellular coverage indoors. Refer to "[Generate Activation Codes](#)" on how to generate an activation code for handset users activating over Wi-Fi. A similar method is followed to activate other types of clients.

4.3. Re-Sync a User

For more information, refer to the "[Re-sync a Device](#)" section in this document.

4.4. Generate Activation Codes

1. From the PTT Users or Integrated Users work area, click the **Edit** icon associated with the user.

The screenshot displays the 'PTT User Details' page for a user named Andy Graves. The page includes a sidebar with navigation options: PTT Users, Talkgroups, External Users, Integrated Users, Interop Connections, and User Sets. The main content area shows the user's details, including Name, Phone Number, Client Type, Billing Number, State, Permissions, Expiring On, Email ID, and Activation Code. A 'Generate Activation Code' button is visible in the top right corner. Below the details, there is a section for 'Contacts' with a search bar and a table listing contacts.

Name	Phone Number	Client Type
919605111273	+919605111273	External User
919605111274	+919605111274	External User
919605111275	+919605111275	External User
919731020704	+919731020704	External User

Generate Activation Code for a User

2. Click the **Generate Activation Code** icon. A pop-up message window is displayed, “*Activation code successfully generated. Would you like to send an email?*”
3. Click **OK** to send the new activation code to user’s Email ID. A Send Email with Activation Code to Handset Client pop-up window displays.

Send New Activation Code to User

4. Click the **Send Email** button to send the newly generated activation code.
5. After generating the activation code, the activation code expiry date appears on the **User Profile** page in the **Expiring On** field. Regenerate an Activation Code
 1. Click **Regenerate Activation Code** on the **User Profile** page to regenerate the activation code. Regenerating an activation code for already activated clients deactivates the client, thus a confirmation message window is displayed *"You have selected to generate a new activation code. Existing activation code will be invalidated. Client will have to re-activate with new activation code. You do not have to save the changes since the new activation codes are automatically saved after generation."*
 2. Click **OK** to confirm for the regeneration of a new activation code. A pop-up message window is displayed, *"Activation code successfully generated. Would you like to send an email?"*
 3. Click **OK** to send the new activation code to the user's Email ID. A Send Email with Activation Code to Handset Client popup window is displayed.

The screenshot shows the 'PTT User Details' page for Andy Graves. The user's phone number is +91909999990. The 'Expiring On' field shows 30 Jul 2018 01:17 AM CDT. A pop-up window titled 'Email Activation Code Handset Standard' is open, showing an email template with the following content:

4.5. Manage Contacts

There are two types of Push-to-Talk (PTT) contacts: those that are personal and managed on the phone, and those that are managed by you. This section covers the PTT contacts that are managed by you.

The phone book management for contacts is designed with three tabs under the **Manage Contact** tab. An administrator can navigate between these tabs, perform the required changes, and later update the changes.

There are two ways that you can assign contacts to a user.

1. Selecting individual members from user's list.
2. Creating or assigning a user set to a user.

This section describes the first method. For the second method, refer to the ["Assign More than 250 Contacts to Each User through User Sets"](#) section of this document.

4.5.1. Assign Contacts

Perform the following steps to assign contacts.

1. Select a user as explained in the ["View a User"](#) section of this document.
2. From the Contacts tab, click the **Assign Contacts** button.

The screenshot shows the 'PTT User Details' page for 'Andy Graves'. The user's phone number is +919099999990. The 'Assign Contacts to "Andy Graves"' dialog box is open, showing a search bar and a list of contacts. The dialog box has 'Pages 1 of 3' and 'Assign' and 'Cancel' buttons. The main page shows 'Contacts 50', 'Talkgroups 17', and 'Features'. The 'Contacts' tab is active, showing a list of contacts with columns for Name and Phone Number. The dialog box also shows a list of contacts with checkboxes for selection.

Assign Contacts

3. Select the contacts you want to assign to the user's phone book by selecting the applicable check boxes. Only those contacts that are not already assigned to the user are available for selection. You can also select multiple contacts by clicking the check box before the Name header, which functions as a **Select All** check box.
4. Click **Assign**. The assigned contacts are displayed in the **Contacts** tab and the total contacts count is increased accordingly.

Note: You may receive an error if you select an External Contact(s) which is not part of the Corporation.

5. A success message is displayed. The assigned contacts will be synced to the user's handset.

Note: You can select a combination of up to 200 individual contacts or any number of user sets at one time until you reach the maximum of 1000 (new and existing) total contacts. When completed, click the Save button to save all records. The data is not saved until the Save button is clicked.

4.5.2. Remove Contacts

Perform the following steps to remove a contact.

1. Select a user as explained in the "View a User" section of this document.
2. In the work area, click the **Tools** icon.
3. From the **Contacts** tab, select the check box associated with the contact to be deleted.
4. You can also search for the contact by selecting a parameter.

The screenshot displays the 'PTT User Details' page for user 'Andy Graves'. The user's phone number is +919099999990, and their client type is 'Handset Standard'. The user is assigned 'Administrator and User' permissions. Below the user details, there are tabs for 'Contacts' (50), 'Talkgroups' (17), and 'Features'. The 'Contacts' tab is active, showing a search bar and a table of 50 contacts. The table has columns for 'Name', 'Phone Number', and 'Client Type'. The contacts listed are all 'Chetana9.0' with phone numbers ranging from +919999666450 to +919999666456. The first two contacts are unselected, and the next four are selected with checkboxes.

Remove Contacts

5. Click the **Delete** icon to perform the removal operation. A confirmation message is displayed stating PTT user was updated successfully. The contacts selected for removal are removed from the Contacts tab, and subsequently, the Total Contacts count decreases.

Note: You can select up to 200 individual contacts or any number of users sets at a time for removal. When completed, click the Save button to save all records. The data is not saved until the Save button is clicked.

4.6. Manage User Sets

A user set is a faster way to program multiple handsets easily. It is a logical set of users where each member of the user set is assigned as a contact to other. The user sets are only visible and manageable from the Central Admin Tool (CAT).

For more information, refer to the ["Manage User Sets Assigned to PTT Users, Talkgroups, or Integrated Users"](#) section in this document.

4.6.1. Add a User Set as Contacts to a User

To add a user set as contacts of a user, refer to ["Assign a User Set"](#) section in this document.

User Sets updates are propagated automatically.

To add a User Sets to a group

1. Select a group from the **Talkgroups** tab and click edit button.
2. Click the **Assign User Set** tab and a pop-up assign user set window is displayed.

Add User Sets as Members of a Group

3. Select the user sets and click the **Assign** button.
4. Click **OK** to continue the confirmation message that appears.

4.6.2. Remove a User Set from a User

To remove a user set from a user that you are not a member of, refer to ["Remove a User Set"](#) section in this document.

To remove a user set from a user that you are a member of, refer to ["Remove Members from a User Set"](#) section in this document.

Remove a User Set from a Talkgroup

4.6.3. View User Set Members Associated with a User

To view user set members associated with a user, refer to ["View User Set Members"](#).

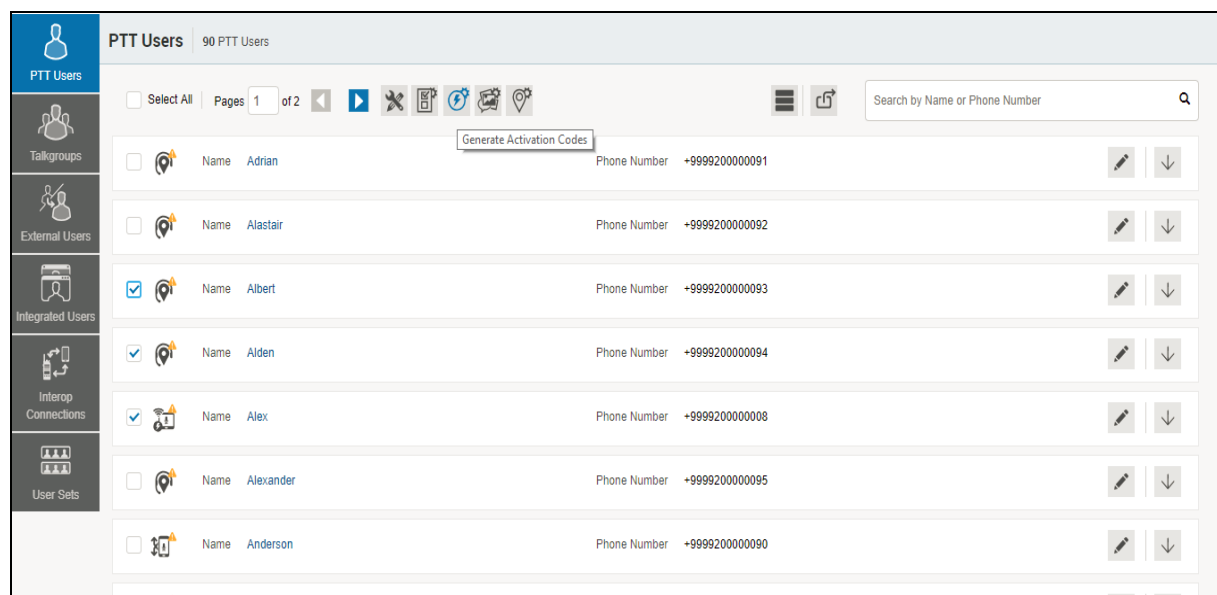

4.7. Manage Talkgroups

For more information, refer to the ["Manage Talkgroups"](#) section in this document.

4.8. Select Multiple Users

To select multiple users, you can select and click the users from the work area individually by clicking the **Tools** icon and clicking the **Select All** check box for all records or clicking one or more individual check box.

Users are displayed alphabetically in the work area in pages. You can navigate through the pages by using the arrows at the top-left of the page or type a page number in the text field.

Selecting Multiple Users

You can change the Type as explained below:

1. Select the **Change Type icon** to display the following options for the selection.
 - Administrator
 - Administrator and User

Note: You will see an Information message based on your selection of Administrator or Administrator and User type selected. For example: *“You are about to change the types of all the selected users to Administrator. Are you sure?”*

2. Click **OK** to save the changes or **Cancel** and your changes will be lost.

You can change the Messaging permissions for users the following options:

- **None**

The selected user can not send and receive any message.

- **Text?**

The selected user can send and receive text messages.

- **Text and Multimedia?**

The selected user can send and receive text and multimedia messages (image, video, audio, and file).

- **Set Location Sharing?**

The selected user can send and receive location information.

To enable or disable the features, do the following:

1. Click the respective icon and select **Yes** to allow.
Or
Click **No** to deny the permission.
2. Click **OK** to save the changes or **Cancel** and your changes will be lost.

4.9. Copy and Paste Talkgroup details

You can copy and paste the assigned talkgroup details of one PTT Radio user to another PTT Radio user in your corporation. This will copy all the talkgroups, zones, positions and scan talkgroup priority for that PTT Radio user. When you paste the copied details, the PTT Radio user for talkgroups will look exactly the same as the PTT Radio user till there are additional unassigned talkgroups already existed for the user.

To copy and paste the talkgroup details, do the following:

1. From PTT User work area, click the **Edit** icon associated to the PTT user.
2. In the Talkgroups tab, click the **Copy/Paste** icon.
Or
Right-click anywhere in the Talkgroups tab.

PTT User Details | sam | +919191919181

Name: sam | Phone Number: +919191919181 | Client Type: Handset PTT Radio

Billing Number: +919191919181 | State: Provisioned | Permissions: Administrator and User

Expiring On: | Email ID: sam.123@org.com | Activation Code: [icon]

Contacts: 0 | Talkgroups: 2 | Features

Search by Talkgroup Name

Page 1 of 1

Name	Talkgroup Type	zone	Position	Scan List Priority
CAB_South	Standard	Not Assigned	Not Assigned	Not in Scan List
GRP_A3	Standard	Not Assigned	Not Assigned	Not in Scan List

Copy Talkgroup Details

- From the drop down select **Copy**. The talkgroup details will be copied.
- Go to the PTT user to which the talkgroup details need to be pasted.

PTT User Details | Vadi | +919898989898

Name: Russel | Phone Number: +919898989898 | User ID: System ID 919898989898

State: Provisioned | Permissions: Administrator and User

Contacts: 0 | Talkgroups: 10 | Features

Search by Talkgroup Name

Page 1 of 1

Name	Talkgroup Type	zone	Position	Scan List Priority
BGC121	Broadcast	N/A	N/A	Talkgroups not in scan list
Broadcast_South	Broadcast	N/A	N/A	Talkgroups not in scan list

Paste Talkgroup Details

- In the Talkgroups tab, click the Copy/Paste icon.
Or
Right-click anywhere in the talkgroups tab.
- From the drop down select **Paste**. The talkgroup details will be pasted.

Note: You can copy the talkgroup details once and paste multiple times.

Note: If PTT Radio user has already previous talkgroup assigned then, they may be preserved and set to unassigned. Recommendation is to paste to a new PTT Radio user without any prior talkgroup assignments.

7. A success message is displayed.

Note: You can copy and paste the talkgroup details of Handset, Cross Carrier and Wi-Fi type PTT Radio users only.

4.10. Generate Activation Codes for Multiple Users

You can generate activation codes for multiple users by performing the following steps.

1. In the work area, click the **Tools** icon (if available) and click the **Select All** check box for all records or click more than one individual check box.
 2. Click the **Generate Activation Codes** icon. An information message displays, *"You have selected to generate new activation codes. Existing activation codes if any will be invalidated. Client will have to re-activate with new activation code. You do not have to save the changes since the new activation codes are automatically saved after generation."*
 3. Click **OK** to generate the activation code. A confirmation message displays stating, *"Success Multiple Users updated successfully."*
-

Note: If any of the selected users are already active or have an activation code, only then will you get the pop-up message.

4.11. Using the Export Operation

For more information, refer to the ["Using the Export Operation"](#) section in this document.

4.12. Enable Features to PTT Users

You can enable the specific or all the features to selected PTT users such as Location History, Geofence and Messaging. You can also enable the specific or all the features in Messaging such as Text, Multimedia and Location.

4.12.1. Enable feature to individual PTT user

To enable the features to individual PTT users, do the followings:

1. In the work area, click the **Edit** icon associated with the user.
2. Click the **Features** tab.
3. Enable the features from the drop-downs.

4. Click **Save** to save the changes.
- Or
- Click **Cancel** to cancel the action.

Enable Feature - Individual User

Note: The feature drop-downs will appear only for the activated 8.3 or above clients. The emergency related features drop-downs will appear for 9.0 or above clients.

4.12.2. Enable features to multiple PTT users

To enable the features to multiple PTT users, do the following:

1. In the work area, click the **Tools** icon associated with the user.
 2. Select the checkbox(es) next to the contact(s) and select the features Set Messaging and Set Location Sharing.
 3. Click **Yes** to continue.
- Or
- Click **No** to cancel.

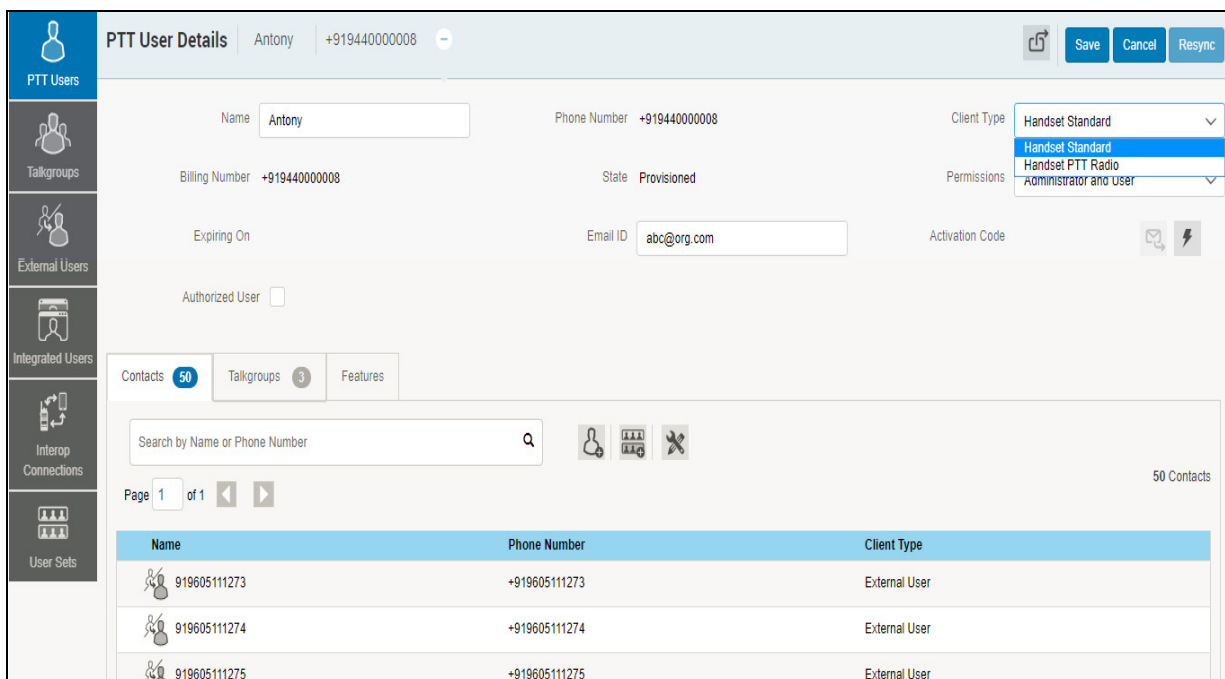

Enable Features - Multiple Users

4.13. Change Client Type

You can change the client type of the Handset Standard, Cross Carrier Standard and Wi-Fi Standard from the drop-down in the work area of the user details. To change the client type, do the following:

1. From the PTT Users work area, click the **Edit** icon associated with the user.
2. In the Work area, select the Client Type drop-down.

Change Client Type

3. Select the type of client you want to change and click **Save** button.
4. A confirmation message is displayed. Click **OK** to continue.
Or
Click **Cancel** to cancel the action.

4.14. Enable Authorization for Remote Supervision Features

You can authorize a user to do the remote supervision for the assigned contacts. Remote Supervision feature includes user check and enable or disable the contact. After evaluating and accessing the information, you can activate ambient listening and discrete listening for the user. You can only authorize PTT users and Integrated Users for user monitoring. To authorize a user, refer to the "[Features Authorization](#)" section of this document.

The screenshot shows the 'PTT User Details' edit screen for a user named 'Antony'. The user's phone number is +91999222222. The 'Authorized User' checkbox is checked. Below the user details, there are tabs for 'Contacts' (50), 'Talkgroups' (3), and 'Features'. A search bar is present for 'Search by Name or Phone Number'. Below the search bar, a table displays a list of contacts with columns for Name, Phone Number, Client Type, Remote Supervision, Ambient Listening, and Discrete Listening.

Name	Phone Number	Client Type	Remote Supervision	Ambient Listening	Discrete Listening
919605111273	+919605111273	External User	Do not allow	Do not allow	Do not allow
919605111274	+919605111274	External User	Do not allow	Do not allow	Do not allow
919605111275	+919605111275	External User	Do not allow	Do not allow	Do not allow

Enable Authorization - Edit Screen

Note: The authorization checkbox will not be available for the users before 9.0 clients. The authorization checkbox will not be available to the user if they are not provisioned with the emergency feature package.

Once user is authorized, they can monitor the current situation of a member who is not responding to the calls, IPAs and messages. The authorized user then, can activate user check, ambient listening and discreet listening to collect information of that member. You can allow following features for the authorized user from the edit user screen:

- **Remote Supervision** - When the remote supervision is selected, the authorized user can view information like the member's location, presence status, battery status, emergency state and signal strength of Wi-Fi or LTE of the member's device. The authorized user can remotely enable or disable the user's device and can start or cancel the remote emergency.

- **Ambient Listening** - Once the user check informations are displayed, the authorized user can select ambient listening which then activates the member's device Mic remotely and allows authorized user to listen to the member's surroundings without knowing them and take necessary actions like remote emergency, and enable or disable the member's device.
- **Discreet Listening** - Allows the authorized user to listen to any call to and from the selected member without knowing them.

Check or uncheck the previous feature checkboxes to enable or disable the features respectively for the authorized user.

Note: To activate remote supervision, ambient listen or discreet listen, the feature should be available for the configuration and the user device should support to use these feature.

4.14.1. Features Authorization

You can authorize individual or multiple members for the remote supervision, ambient listening and discreet listening from the edit screen of a user.

To authorize individual or multiple members, do the following:

1. Form the PTT Users work area, click the **Edit** icon associated with the user.
2. Make sure that the **Authorized User** checkbox is checked.
3. In the Work area, click the **Tools** icon under the **Contacts** tab.
4. Select the member or the members of the user set to which features need to be enabled.

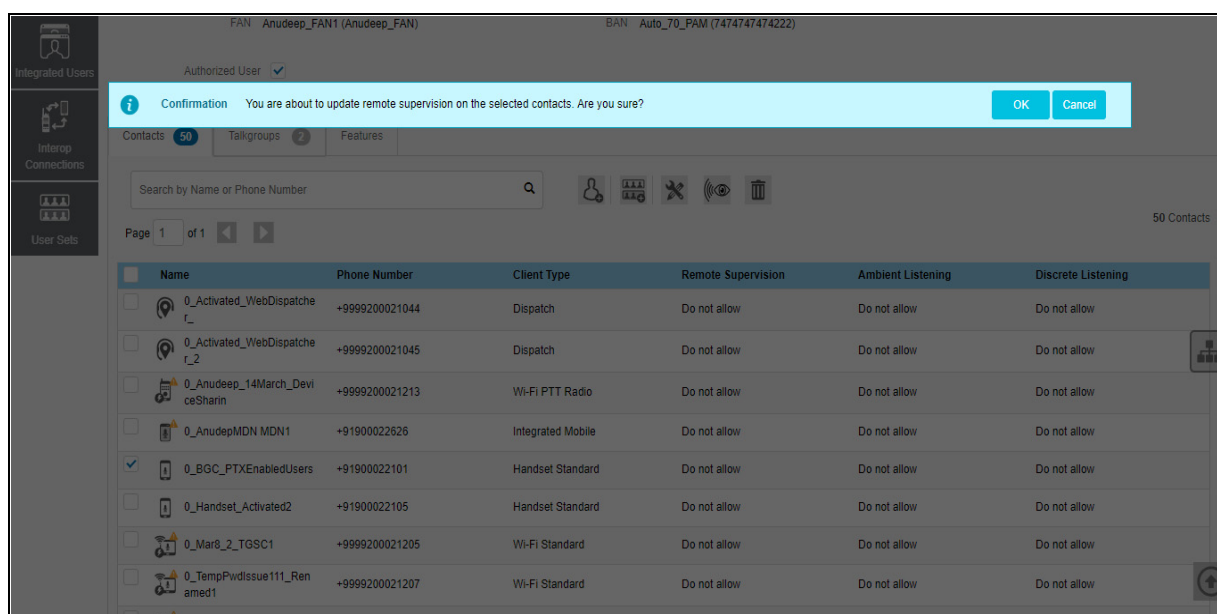

The screenshot shows the 'PTT User Details' page for a user named 'Antony'. The 'Authorized User' checkbox is checked. Below the user details, there is a 'Features' tab with a search bar and a table of contacts. The table has columns for Name, Phone Number, Client Type, Remote Supervision, Ambient Listening, and Discrete Listening. The first contact is selected, and the 'Remote Supervision' icon is highlighted.

Name	Phone Number	Client Type	Remote Supervision	Ambient Listening	Discrete Listening
<input checked="" type="checkbox"/> 919605111273	+919605111273	External User	Do not allow	Do not allow	Do not allow
<input type="checkbox"/> 919605111274	+919605111274	External User	Do not allow	Do not allow	Do not allow
<input type="checkbox"/> 919605111275	+919605111275	External User	Do not allow	Do not allow	Do not allow
<input type="checkbox"/> 919731020704	+919731020704	External User	Do not allow	Do not allow	Do not allow

Features Authorization

5. Click the **Remote Supervision** icon. A Select the Configuration block opens.

6. Select from the below options -
 - a. Change Remote Supervision
 - b. Change Ambient Listening
 - c. Change Discreet Listening
7. Click **Allow** to authorize
Or
Click **Do not allow** to unauthorize the feature.
8. Click **Apply** to save the changes.
Or
Click **Cancel** to cancel the action.

Feature Authorization Confirmation Message

9. A confirmation messages is displayed. Click **OK** to continue.
Or
Click **Cancel** to cancel the action.

Note: You cannot activate remote supervision, ambient listening and discreet listening for a dispatcher. An error message is displayed if you select dispatcher for authorization.

Note: A PTT User that uses a feature phone may not work as an Authorized User even if assigned from the Central Admin Tool.

4.15. Features

The Features tab under the edit PTT Users screen shows the Packages, Device Info, Messaging, Location Sharing, Automatic Location Publish Control, Geofence and Emergency specific information. Mouse hover on the Help icon displays the details of each feature assigned to the user.

Features Tab

Note: The Emergency specific information will not be shown under the Features tab for older than 9.0 clients.

Below are the information displayed in the Features tab:

4.15.1. Packages

Displays the type of package assigned to the user. These packages includes Tired Package and Add-on Packages.

4.15.2. Device Info

Displays the information related to Manufacturer, Model, OS and Application of the user's device.

4.15.3. Messaging

Displays the messaging capability of the user. You can configure the messaging capability of the user as below.

- **Text Multimedia** - Allows you to provide permission from one of the following:
 - **None** - No messaging capabilities.
 - **Text** - Only text messaging

- **Text and Multimedia** - Both text and multimedia messaging.

Location Sharing - Allows you to provide permission for sharing member's location capability in messages.

Geofence - Allows you to enable the geofence capability for the user.

4.15.4. Automatic Location Publish Control

Allows you to enable or disable the location publish capabilities for the user.

4.15.5. Emergency

The following emergency configuration are available for the administrator.

Emergency

Allow Emergency Initiation? [?] Yes ▾

Special Notification [?] For received emergency calls ▾

Talkgroup Steering [?] Yes ▾

Destination [?] Admin Selected Contact or Talkgroup ▾

Primary: Talkgroup Contact

CAB_East ▾

Secondary: None Talkgroup Contact

Administration ▾

Call Initiation Type [?] Manual Automatic

Cancellation [?] No, only authorized user can cancel the emergency for the user ▾

Emergency Notifications

If configured, the administrator can configure the following:

- **Allow Emergency Initiation?** - From the drop-down, you can select **Yes** or **No** to enable or disable emergency initiation respectively for the user. If you select **Yes**, the following options are displayed:
 - **Destination** - From the drop-down, you can select “User Selected Talkgroup or Admin Selected Contact or Talkgroup.” If you select “User Selected Talkgroup” then the user can initiate the emergency to any of the assigned talkgroup list. If you select “Admin Selected Contact or Talkgroup” then you can choose the destination of the emergency to Primary and Secondary contacts or talkgroups. From the drop-down, choose the talkgroup or contact where you want the user to initiate the emergency.
 - **Call Initiation Type** - You can select **Manual** or **Automatic**. If you select **Manual**, then an emergency alert will be sent to the user and the PTT button need be pressed to initiate the

emergency call. If you select **Automatic**, then an emergency alert will be sent and the emergency call will start.

- **Cancellation** - From the drop-down, you can select **Yes** or **No**. If you select **Yes**, then the user can cancel their own emergency. If you select **No**, then only authorized user can cancel the initiated emergency.
- **Special Notification** - From the drop-down, select one of the followings:
 - **None (Regular call notification)** - If you want the user to be notified for regular call notifications.
 - **For received emergency calls** - If you want the user to be notified for the received emergency calls only.
 - **For initiated emergency calls** - If you want the user to be notified for the initiated emergency calls only.
 - **For both** - If you want the user to be notified for both the initiated and received emergency calls.
- **Talkgroup Steering** - From the drop-down, select **Yes** or **No**. If you select **Yes**, then the user will automatically join the emergency. The User will not join the emergency automatically if you select **No**.

4.15.6. Authorized User Features

The authorized user for the selected user for the selected PTT user will be displayed under the **Features** tab in a tabular format showing the operations that can be performed by the authorized user for the selected PTT user.

Authorized Users ⓘ			
Name	Remote Supervision	Ambient Listening	Discrete Listening
Bob	✓	✓	✓

Authorized User Features

5. Manage Talkgroups

The Manage Talkgroups section describes the talkgroups that are managed by you.

There are two types of Talkgroups: those that are personal and managed on the phone and those that are managed by you.

Talkgroup icons are identified in the "[Talkgroup Icons](#)" section of this document.

For common icons, refer to the "[Common Icons](#)" section of this document.

This section is organized as follows:

- [View a Talkgroup](#)
- [View Talkgroups Assigned to a User](#)
- [Create a New Talkgroup](#)
- [Edit a Talkgroup](#)
- [Rename a Talkgroup](#)
- [Add Members to a Talkgroup](#)
- [Change Call Permissions](#)
- [Remove a Member from a Talkgroup](#)
- [Manage User Sets](#)
- [Save Changes to a Talkgroup](#)
- [Delete a Talkgroup](#)

5.1. View a Talkgroup

To view a Talkgroup, click the Talkgroup menu from the CAT navigation. The Talkgroups main screen is displayed as shown below.

The work area lists the name, type of the talkgroup, and number of members. You can change the name but you cannot change the type of the talkgroup or number of members.

Note: To edit the name, double-click the Name field and change the name as desired.

Name	Facilities	Talkgroup Type	Dispatch	Member	Count
Name	Facilities	Talkgroup Type	Dispatch	Member	53
Name	Field Service	Talkgroup Type	Dispatch	Member	99
Name	Managers	Talkgroup Type	Standard	Member	47
Name	Urgent Response	Talkgroup Type	Dispatch	Member	6
Name	Zone 1	Talkgroup Type	Standard	Member	4
Name	Zone 2	Talkgroup Type	Standard	Member	4
Name	Zone 3	Talkgroup Type	Standard	Member	28

Talkgroups Main Screen

Note: For some small corporations, the auto-pairing feature creates a talkgroup named *'all-users talkgroup'* automatically when there is no corporate administration access. As the auto-paired corporation grows, the corporate administration access is required to manage the contacts and talkgroups. Not all corporations are auto-paired. If your corporation is auto-paired previously and you are given an access to Admin tool now, that means your corporation is no longer auto-paired, but you can manage the previously created auto-paired talkgroup as any other talkgroup.

5.2. View Talkgroups Assigned to a User

1. Select a user from the **PTT Users** menu to display the User Profile page and click **Edit** icon.
2. Click the Talkgroups tab to display the assigned talkgroups for the selected user as shown below.

The screenshot shows the 'PTT User Details' page for a user named Chetana. The user's phone number is +919999666460, and their client type is 'Handset PTT Radio'. The user is an 'Authorized User' with 'Administrator and User' permissions. Below the user details, there are tabs for 'Contacts' (91), 'Talkgroups' (2), and 'Features'. The 'Talkgroups' tab is active, showing a search bar and a table of assigned talkgroups. The table has columns for Name, Talkgroup Type, Zone, Position, and Scan List Priority. Two talkgroups are listed: 'Fire' (Broadcast type, N/A zone and position) and 'test' (Standard type, Not Assigned zone and position). The 'test' talkgroup has a 'Not in Scan List' button next to it.

Name	Talkgroup Type	Zone	Position	Scan List Priority
Fire	Broadcast	N/A	N/A	Talkgroups not in scan list
test	Standard	Not Assigned	Not Assigned	Not in Scan List

View Talkgroups Assigned to a User

Note: If there is no talkgroup displayed for a selected user, you will need to create a talkgroup. For information on creating talkgroups, refer to the "Create a New Talkgroup" section of this document.

5.3. Create a New Talkgroup

The following talkgroup types are supported in the Central Admin Tool.

Standard Talkgroup – A standard talkgroup can have one or more supervisors assigned to it. Refer to "[Supervisory Override and Location Capabilities](#)" for more details.

Dispatch Talkgroup – A Dispatch talkgroup is a standard talkgroup with the additional capability to assign a dispatcher to it. The members of the talkgroup are called fleet members. Refer to "[Dispatch](#)" for more details.

Broadcast Group – A Broadcast group is a special type of talkgroup where the communication is one way from the broadcasters of the talkgroup to the members. A Broadcast Group can have up to 500 members including the Broadcaster. These types of talkgroups allow a broadcaster to make high-priority calls typically used for making important announcements. Refer to "[Manage Broadcast Groups](#)" for more details.

Note: Standard, Dispatch and Broadcast talkgroups can have up to 3000 members. The maximum numbers of members in a talkgroup depends on the server configuration.

A large talkgroup icon will be shown next to the talkgroup name if the talkgroup consists up to 3000 members. You cannot enable Geofence and Geo Location features for large talkgroup and dispatcher or supervisor will not receive the location updates from the large talkgroup members.

1. From the Talkgroups work area, click **Create Talkgroup** to create a new talkgroup as shown below.

The screenshot shows the 'New Talkgroup' interface. At the top, there are 'Save' and 'Cancel' buttons. Below them are input fields for 'Talkgroup Name', 'Talkgroup Type' (set to 'Standard'), and 'Avatar' (set to 'Default'). A 'Members' section includes a search bar labeled 'Search by Name or Phone Number' and a 'Supervisors' section. Below the search bar is a table with the following columns: Name, Phone Number, User Type, In Call, Call Initiation, and Call Receiving. The table is currently empty, displaying the text 'Assign one or more Member(s)'. A sidebar on the left contains navigation icons for PTT Users, Talkgroups, External Users, Integrated Users, Interop Connections, and User Sets.

Create New Talkgroup

2. Select a talkgroup from the **Talkgroup Type** drop-down.
3. Enter the talkgroup name in the **Name** field. The name should be less than 30-characters long and it should have at least one non-space character. Duplicate names are not allowed in the corporation.
4. Select an **Avatar** from the drop-down. A list of all available Avatars is listed in the "[Avatars](#)" section within this document.

Note: You can change the avatars only for PTT Radio users.

5. Click the **Assign Members** button to assign members. The **Assign Members** pop-up window is displayed as shown below.

The screenshot displays the 'Talkgroup Details' page for a talkgroup named 'Urgent Response'. The page shows a list of members with columns for Name, Phone Number, User Type, and In Call status. An 'Assign Members' dialog box is open on the right, showing a search bar and a list of users with checkboxes for selection. The dialog box has 'Assign' and 'Cancel' buttons.

Name	Phone Number	User Type	In Call
Andy Graves	919996431967	Handset PTT Radio	Listen and Talk
Bob Milligan	919996431968	Handset Standard	Listen and Talk
Lafaha Green	919996433171	Handset Standard	Listen and Talk
Liz Schwartz	919996433170	Handset Standard	Listen and Talk
Tony Medina	919996431969	Handset Standard	Listen and Talk

Add Individual Members

6. Select the members to be added to the talkgroup by checking the applicable check boxes. Only those members that are not already a member of the talkgroup are available for selection. The talkgroup must have at least two members in it. You can pick a maximum of 200 members at a time for an addition. You can also select members by clicking the check box next to the Name header, which functions as a **Select All** check box.
7. Click **Assign**. The members selected for addition are displayed in the Talkgroup tab and the total members count is increased accordingly.
8. Click **Save** to add the talkgroup. A confirmation message displays, *"Talkgroup will be created and distributed to members. Are you sure? Note: DO NOT CREATE a talkgroup with all external contacts only. Make sure that there is at least one internal user in it."*
9. Click **OK** to continue the confirmation message that appears. The updated talkgroup will be synced to the user's handset. A Success message displays stating that your 'talkgroup' added successfully.

The talkgroup is not added to the corporation until you click the **Save** button.

5.4. Edit a Talkgroup

5.4.1. Rename a Talkgroup

1. Select the talkgroup from the Talkgroups work area and click the **Edit** icon associated with the Talkgroup to be edited.

Talkgroup Details

Talkgroup Name: Talkgroup Type: Avatar:

Members: 5 Supervisors: 2 Dispatchers: 1

Search by Name or Phone Number

Page 1 of 1 5 Members

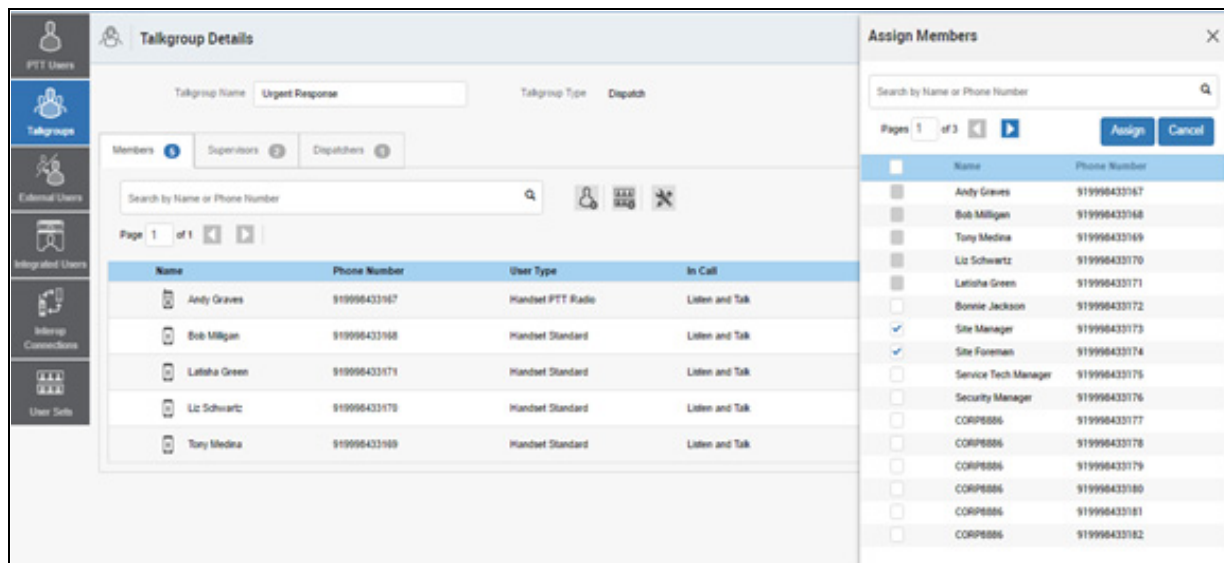

Name	Phone Number	User Type	In Call	Call Initiation	Call Receiving
Andy Graves	919998433167	Handset PTT Radio	Listen and Talk	Allow	Allow
Bob Milligan	919998433168	Handset Standard	Listen and Talk	Allow	Allow
Latisa Green	919998433171	Handset Standard	Listen and Talk	Allow	Allow
Liz Schwartz	919998433170	Handset Standard	Listen and Talk	Allow	Allow
Tony Medina	919998433169	Handset Standard	Listen and Talk	Allow	Allow

Rename a Talkgroup

2. Modify the talkgroup name in the **Name** field.
3. Click **Save** to save your changes. A Success message displays, “<Talkgroup Name>' updated successfully.”

5.4.2. Add Members to a Talkgroup

1. Select the talkgroup from the **Talkgroups** work area and click the **Edit** icon.
2. Select the **Members** tab to display the individual members in the selected talkgroup.
3. Click the **Assign Members** button to add more members. The Assign Members pop-up is displayed as shown below.

Add Members

4. Select the members to be added to the talkgroup by checking the applicable check boxes. Only those members that are not already a member of the talkgroup are available for selection. You can pick a maximum of 200 members at a time for an addition. You can select all members of a talkgroup by clicking on the check box before the Name header, which functions as a Select All check box.
5. Click **Assign** once you are done selecting the members. The members selected for addition are displayed in the **Members** tab and the total members count is increased accordingly. Default call permissions are automatically assigned. To change the call permissions for a member, see ["Change Call Permissions"](#) section in the document.

5.4.3. Change Call Permissions

There are three types of call permissions that you can assign to a member as listed in the following table.

Function	Permission	Description
In Call	Listen and Talk	While In call permission is set to Listen and Talk, PTT user can listen to the PTT call session as well as allowed to transmit/talk to the active PTT call session. This is default permission to all the talkgroup members.
	Listen Only	While In call permission is set to Listen only, PTT user is only allowed to listen to the PTT call session but NOT allowed to transmit/talk to the active PTT call session.

Function	Permission	Description
Call Initiation	Allow	When set to Allow, PTT user can initiate new PTT call session to the predefined talkgroup. PTT user is also allowed to rejoin to the session that is missed due to network issues, busy in other call etc. reasons. This is default permission for all talkgroup members.
	Do not Allow	When set to Do not Allow, PTT user is NOT allowed to initiate new PTT call session or rejoin existing active PTT call session.
Call Receiving	Allow	When set to Allow, PTT user is configured to receive all the calls on the predefined talkgroup that user is part of. PTT user is paged for all the calls that are initiated on the talkgroup by other members. There is no retry for paging if user missed the call for any reason. This is default permission to all the talkgroup members.
	Do not Allow	When set to Do not Allow, PTT user is NOT allowed to receive any incoming PTT call session. PTT user is not paged for any calls that are initiated on that talkgroup by other members.

Call Permissions icons are identified in the "[Talkgroup Icons](#)" section of this document.

Change In Call Permissions

1. From the **Members** tab, click the **Tools** icon, and select the check box associated with the member to assign permissions.
2. From the **Permissions** drop-down, select **Listen and Talk** or **Listen Only**.
3. Click **Apply** to save the changes.
Or
Click **Cancel** to Cancel the action.

An information message displays, *"You are about to update In Call Permission for the selected Subscriber. Are you sure?"*

4. Click **OK**. A success message is displayed.
Or
Click **Cancel** to Cancel the action.

Change Call Initiating Permissions

1. From the **Members** tab, click the **Tools** icon, and select the check box associated with the member to assign permissions.
2. From the **Permissions** drop-down, select **Allow** or **Do not Allow**.
3. Click **Apply** to save the changes.
Or
Click **Cancel** to Cancel the action.

An information message displays, *"You are about to update Call Initiation Permission for the selected Subscriber. Are you sure?"*

4. Click **OK**. A success message is displayed.
Or
Click **Cancel** to Cancel the action.

Change Call Receiving Permissions

1. From the **Members** tab, click the **Tools** icon, and select the check box associated with the member to assign permissions.
2. From the **Permissions** drop-down, select **Allow** or **Do not Allow**.
3. Click **Apply** to save the changes.
Or
Click **Cancel** to Cancel the action.

An information message displays, *"You are about to update Call Receiving Permission for the selected Subscriber. Are you sure?"*

4. Click **OK**. A success message is displayed.
Or
Click **Cancel** to Cancel the action.

5.4.4. Remove a Member from a Talkgroup

1. Select the talkgroup from the **Talkgroups** work area and click **Edit** icon associated with the Talkgroup to be edited.
2. Click the **Members** tab to display the individual members in the selected talkgroup.
3. Click the **Tools** icon.
4. Select the members to be removed from the talkgroup by checking the applicable check boxes.
5. Click the **Delete** icon to remove talkgroup members. A Success message displays, *"<Talkgroup Name>' updated successfully."*

Note: Unless the Save button is clicked, the remove operation is not complete. You can select up to 200 members at a time for removal.

5.4.5. Manage User Sets

A user set is a faster way to program multiple handsets easily. It is a logical set of users where each member of the user set is assigned as a contact to other. The user sets are only visible and manageable from the Central Admin Tool (CAT).

For more information, refer to the ["Manage User Sets"](#) section in this document.

Add User Sets as Members of a Talkgroup

Using User Sets, you can quickly add members to a talkgroup. To learn more about User Sets, refer to ["Manage User Sets"](#).

User Sets updates are propagated automatically.

To add a User Sets to a group

1. Select a group from the **Talkgroups** tab and click edit button.
2. Click the **Assign User Set** tab and a pop-up assign user set window is displayed.

The screenshot shows the 'Talkgroup Details' page for the 'Construction' talkgroup. The 'Members' tab is active, displaying a table of members. A pop-up window titled 'Assign User Set' is overlaid on the right, showing a search bar and a list of user sets with checkboxes for selection.

Name	Phone Number	User Type	In Call
#####@1	+919008447696	Handset Standard	Listen and Talk
917567894299	+917567894299	Cross Carrier PTT Radio	Listen and Talk
WiFi STD iOS	+917567890169	Wi-Fi Standard	Listen and Talk

The 'Assign User Set' pop-up window shows a search bar and a list of user sets with checkboxes for selection:

- east (6)
- north (1)
- south (1)
- user set (5)
- user set all (100)
- west (7)

Add User Sets as Members of a Talkgroup

3. Select the user sets and click the **Assign** button.
4. Click **Close** icon to continue on the confirmation message that appears.

Remove a User Set from a Talkgroup

Using User Sets, you can remove User Sets from a talkgroup. To learn more about User Sets, refer to ["Manage User Sets"](#).

1. Select the group from the Talkgroups tab and click edit button.
2. Click the **Tool** icon.
3. Select the user set in the work area and click the **Delete** icon to remove the user set (and thus the members of the user set as contacts) from the talkgroup.

Remove a User Set from a Talkgroup

4. Click **Close icon**. The members of the user-set are removed from the subscriber and the total contacts count decreases.

View User Set Distribution to a Talkgroup

Using User Sets, you can view User Sets distribution with a talkgroup. To learn more about User Sets, refer to "[View User Set Distribution](#)".

Perform the steps below to identify the talkgroups that a user set is a member.

1. Select the talkgroup from the **Talkgroups** tab and click edit button.
2. Click the **View Distribution** drop-down of the user set on the work area of the talkgroup page to view the list of talkgroups in which this user set is added as a member. The View Distribution page appears as shown below.

View User Set Distribution to a Talkgroup

5.4.6. Save Changes to a Talkgroup

Perform the following steps to save changes to a talkgroup.

1. Click **Save** or **Assign** to save your changes.
2. Click **OK** to continue the confirmation message that displays.

5.5. Delete a Talkgroup

Perform the following steps to delete a talkgroup.

1. From the Talkgroup work area, click the **Delete** icon next to the talkgroup that you want to delete. A delete confirmation window is displayed, *"You are about to delete <Talkgroup Name> from the system. It shall be deleted from it's members. Are you sure?"*
2. Click **OK** to delete the talkgroup.

6. Talkgroup Scanning

Talkgroup Scanning allows a user to receive incoming Push-to-Talk (PTT) calls from a selected list of assigned talkgroups. Calls from other corporate and public talkgroups are filtered and no missed call alerts are presented to the user for filtered talkgroup calls (except for Dispatch users). The scan talkgroups can be assigned a priority. An incoming priority talkgroup call preempts an ongoing call. The Talkgroup Scanning does not prevent the user from initiating any calls.

This section is organized as follows:

- [Create a Talkgroup Scan List for 7.6 and before \(except 7.6 Android\)](#)
- [Edit a Talkgroup Scan List for 7.6 and before \(except 7.6 Android\)](#)
- [Disable the Talkgroup Scan List for 7.6 and before \(except 7.6 Android\)](#)
- [Talkgroup Scanning for 7.10 onward clients \(Except PTT Radio Clients\)](#)
- [Position and Talkgroup Scanning for PTT Radio Users](#)

You manage the Talkgroup Scan List for 7.6 and before users (except 7.6 Android).

7.10 and above users with the exception of the PTT Radio user are capable of managing the Talkgroup scan list from the user itself. For these users, you can just enable/disable this functionality.

Note: 7.6 Android and 7.7 users support the Talkgroup Select from the handset itself and you do not manage the Talkgroup Select for them.

Interop users do not support any Talkgroup scanning.

Dispatch users manage the scan list from the dispatch user itself. You do not manage the feature for the dispatch users.

6.1. Create a Talkgroup Scan List for 7.6 and before (except 7.6 Android)

1. Select a user from the Talkgroup work area list to display the User Profile page.
2. Click the **Edit** icon associated with the Talkgroup to edit.
3. Click the Talkgroups tab to display the assigned groups for the selected user as shown below.

PTT User Details | Andy Graves | +919099999990

Name: Andy Graves | Phone Number: +919099999990 | Client Type: Handset PTT Radio

Create a Talkgroup Scan List

Note: If there is no talkgroup displayed for a selected user, then you need to create a talkgroup. For information on creating talkgroups, refer the "Create a New Talkgroup" section of this document.

4. Check the **Enable Talkgroup Scanning** check box. Two new columns are displayed in the talkgroups table as shown below.

PTT User Details | Andy Graves | +919099999990

Name: Andy Graves | Phone Number: +919099999990 | Client Type: Handset PTT Radio

Billing Number: +919099999990 | State: Provisioned | Permissions: Administrator and User

Expiring On: | Email ID: abc@org.com | Activation Code: [icon]

Contacts: 98 | Talkgroups: 20 | Features

Search by Talkgroup Name

Page 1 of 1 | Enable Talkgroup Scanning | 20 Talkgroups

Name	Talkgroup Type	Talkgroup in Scan list	Priority
Brd_July24	Broadcast	Talkgroups not in scan list	
CAB_East	Standard	<input checked="" type="checkbox"/>	Priority 2
CAB_North	Dispatch	<input checked="" type="checkbox"/>	Priority 1
CAB_South	Dispatch	<input checked="" type="checkbox"/>	Priority 7
CAB_West	Dispatch	<input checked="" type="checkbox"/>	Priority 8
Dispatch-July24	Dispatch	<input type="checkbox"/>	
Dispatch-July241	Dispatch	<input checked="" type="checkbox"/>	Priority 5

Enable Talkgroup Scanning

5. Select the check box under the **Talkgroup in Scan List** header for the talkgroup(s) you want to include in the scan list.
6. Select the priority for the talkgroup from the **Priority** drop-down. Repeat Steps 4-5 for the talkgroups that you want to add to the scan list.

7. Click **Save** to save your changes.

6.2. Edit a Talkgroup Scan List for 7.6 and before (except 7.6 Android)

1. Select a user from the Talkgroup work area to display the User Profile page.
2. Click the **Edit** icon to display the assigned talkgroups for the selected user.
3. If you want to change the priority of an already selected talkgroup, select the new priority from the Priority drop-down.
4. If you want to remove the talkgroup from a scan list, clear the check box under **Talkgroup in Scan List** for the talkgroup.
5. Repeat the step above for the talkgroups you want to remove from the scan list.
6. Click **Save** to save the changes.

6.3. Disable the Talkgroup Scan List for 7.6 and before (except 7.6 Android)

To disable the scan list temporarily, clear the **Enable Talkgroup Scanning** check box. This will not remove the scan talkgroups and priorities. You can enable the scanning any time by simply checking the **Enable Talkgroup Scanning** check box.

6.4. Talkgroup Scanning for 7.10 onward clients (Except PTT Radio Clients)

7.10 and onward clients manage the Talkgroup scan list from the client itself. You do not manage their scan list but you can control whether the user can use the Talkgroup Scanning functionality or not.

The Talkgroups tab of each user allows you to enable or disable the Talkgroup Scanning feature for that user.

When the **Enable Talkgroup Scanning** check box is checked, it means Talkgroup Scanning is enabled for the user and the users can select their own scan list. When the check box is cleared, it means Talkgroup Scanning is disabled for the user.

Note: In the above scenarios, you will not see the **Talkgroup in Scan List** and **Priority** columns.

Talkgroup Scanning for 7.10 Onward Clients

6.5. Position and Talkgroup Scanning for PTT Radio Users

The talkgroup which has PTT Radio, Handset PTT Radio or Cross carrier PTT Radio as a member needs a position for talkgroup calling. You can assign talkgroups to zones for a PTT Radio user type. A zone is used to categorize channels into logical groupings. Each talkgroup can be assigned to a single channel. Each channel can be assigned to a single zone. The number of channels allowed per zone is configurable. Talkgroup scanning with position assignment (1–16 position) and scan list priority (Priority 1–16 and No Priority) can be assigned to all talkgroup types with the exception for broadcast talkgroups:

1. When a PTT Radio user is member of the broadcast talkgroup, you cannot assign a Position or Scan List Priority.
2. When a PTT Radio user is a broadcaster of the broadcast group and not a member, you can assign a Position but not a Scan List Priority. Thus the Scan List Priority column indicates “Not in Scan List”.

You can assign a Scan List Priority only when the **Enable Talkgroup Scanning** check box is selected.

PTT User Details Andy Graves +91909999990

Name: Andy Graves | Phone Number: +91909999990 | Client Type: Handset PTT Radio

Billing Number: +91909999990 | State: Provisioned | Permissions: Administrator and User

Expiring On: | Email ID: abc@org.com | Activation Code: [icon]

Authorized User:

Contacts: 98 | Talkgroups: 9 | Features: [icon]

Search by Talkgroup Name: [input]

Page 1 of 1 | Enable Talkgroup Scanning: | 9 Talkgroups

Name	Talkgroup Type	Zone	Position	Scan List Priority
Brd_July24	Standard	2	1	Not in Scan List
CAB_East	Standard	Not Assigned	Not Assigned	Not in Scan List
CAB_North	Dispatch	Not Assigned	Not Assigned	Not in Scan List
CAB_South	Dispatch	Not Assigned	Not Assigned	Not in Scan List
CAB_West	Standard	Not Assigned	Not Assigned	Not in Scan List

Assign Priority Scanning

If you change the client type from any of the previously mentioned users, then the priority scan list feature will be shown as disabled. To enable the priority scan list, the user needs to be assigned with a position. When you assign a position to the talkgroup, the priority scan list will be enabled to select for the priority.

Dispatch-July241	Dispatch	5	1	Not in Scan List
test	Standard	4	1	Not in Scan List

Assign Position

7. Supervisory Override and Location Capabilities

Supervisory Override allows a Talkgroup member to be designated by an administrator to have the privilege to take the floor and speak at any time during a call, even if someone else has the floor. When the supervisor takes the floor while someone else is speaking, the floor will be revoked from the speaker and given to the supervisor. One or more members of a Talkgroup can be designated as a supervisor. If there are two or more supervisors in the same talkgroup, each supervisor can interrupt the other(s). Location Capabilities allows a supervisor to track the location of the talkgroup members. Supervisor can track the location of the talkgroup member by using the Location History feature.

1. From the Talkgroups work area, click the **Edit** icon associated with the talkgroup that you want to edit.
2. Click the **Supervisors** tab.

The screenshot displays the 'Talkgroup Details' page for a talkgroup named 'Fire'. The 'Supervisors' tab is active, showing a list of supervisors. The table below contains the data for the assigned supervisor.

Name	Phone Number	Client Type	Supervisory Override	Location Capabilities
Daniel	+91666666683	Handset PTT Radio	Yes	No

Assign a Supervisor to a Talkgroup

3. Click the **Assign Supervisor** button to assign supervisors to the talkgroup. The Assign Supervisor pop-up window displays.

The screenshot shows the 'Assign Supervisors' dialog box. The main window displays 'Talkgroup Details' for 'Facilities' with 50 members, 5 supervisors, and 1 dispatcher. The 'Assign Supervisors' window is open, showing a search bar and a list of users. The list includes names and phone numbers, with checkboxes for selection. The 'Assign' and 'Cancel' buttons are visible at the top right of the dialog.

Name	Phone Number	Supervisory Override
<input type="checkbox"/>	Andy Graves	919998433167
<input type="checkbox"/>	Anita Modi	919998433213
<input type="checkbox"/>	Ben Chapman	919998433242
<input type="checkbox"/>	Bob Milligan	919998433168
<input type="checkbox"/>	Bonnie Jackson	919998433172
<input type="checkbox"/>	CORP8886	919998433177
<input checked="" type="checkbox"/>	CORP8886	919998433178
<input checked="" type="checkbox"/>	CORP8886	919998433179
<input checked="" type="checkbox"/>	CORP8886	919998433180
<input type="checkbox"/>	CORP8886	919998433181
<input type="checkbox"/>	CORP8886	919998433182
<input type="checkbox"/>	CORP8886	919998433183
<input type="checkbox"/>	CORP8886	919998433216
<input type="checkbox"/>	CORP8886	919998433217
<input type="checkbox"/>	CORP8886	919998433218
<input type="checkbox"/>	CORP8886	919998433219

Assign Supervisors

4. Select the talkgroup members to be assigned as supervisors for the talkgroups. If the user is already assigned as supervisor, they will not show up on this window.

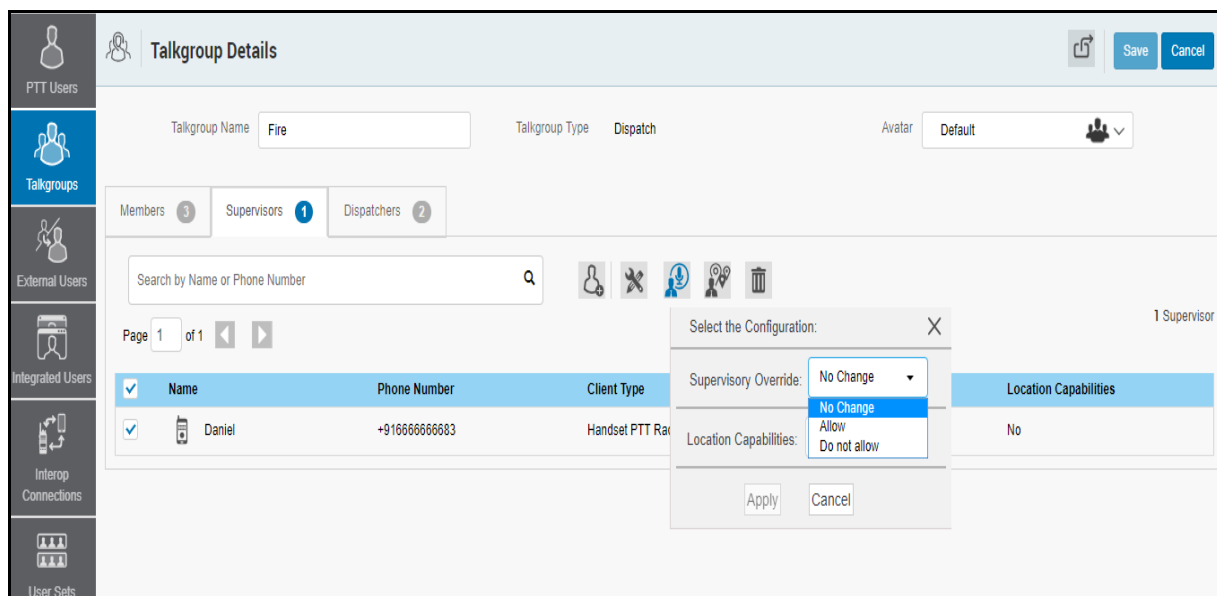

Note: External Contacts, Interop Talkgroups, and Interop users are not allowed to be supervisors and thus will not be available on the Assign Supervisors window for selection.

5. Click **Assign**. A Success message displays a message stating that the Talkgroup was updated successfully.
6. Click the close icon to dismiss the message. The users selected to be a supervisor are displayed in the **Supervisors** tab and the total supervisors count is increased accordingly.

7.1. Enable Supervisory Override or Location Capabilities

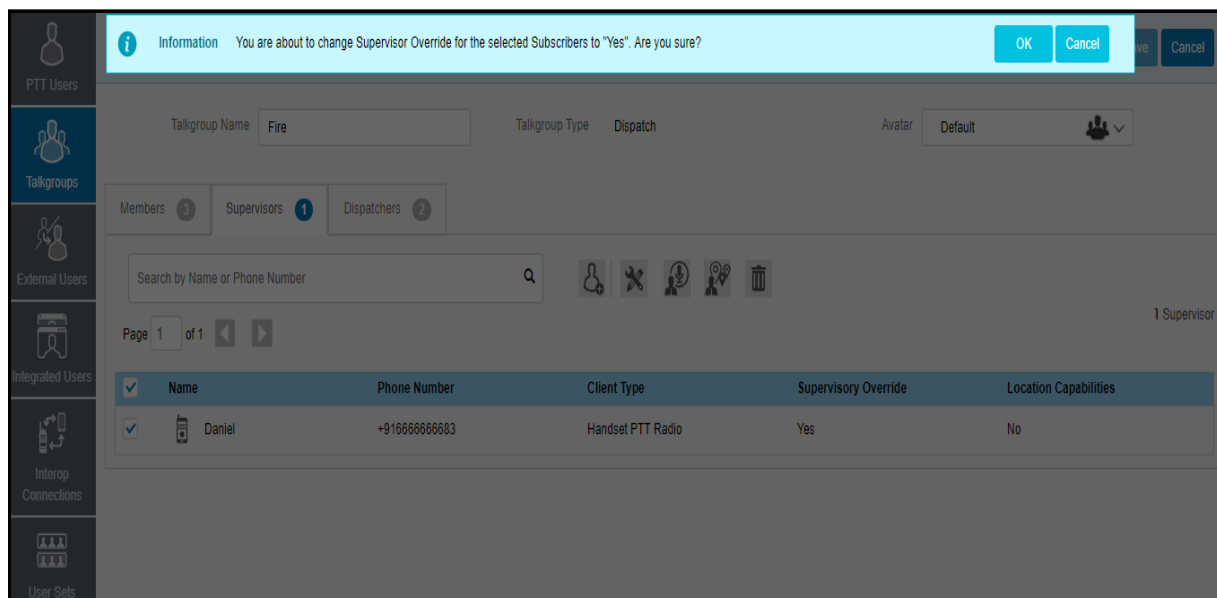

To enable supervisory override or location capabilities of the talkgroup member, do the following:

1. From the **Talkgroups** edit screen, select the **Supervisors** tab.
2. Click the **Tools** icon.
3. Select the member(s) you want to enable supervisory override or location capabilities.

Enable Supervisory Override

4. Click Supervisory Permissions icon.
 5. From the Supervisory Override or Location Capabilities drop-down, Click Allow or Do not allow.
 6. Click **Apply** to save the changes.
- Or
- Click **Cancel** to cancel the action.

Confirmation Message

7. A confirmation message is displayed.

8. Click **OK** to continue.
Or
Click **Cancel** to cancel the action.

8. Manage Broadcast Groups

Broadcast calling enables a broadcaster to make a one-way talkgroup call to the broadcast group members.

Broadcast Group icons are identified in the "[Talkgroup Icons](#)" section of this document.

For common icons, refer to the "[Common Icons](#)" section of this document.

This section is organized as follows:

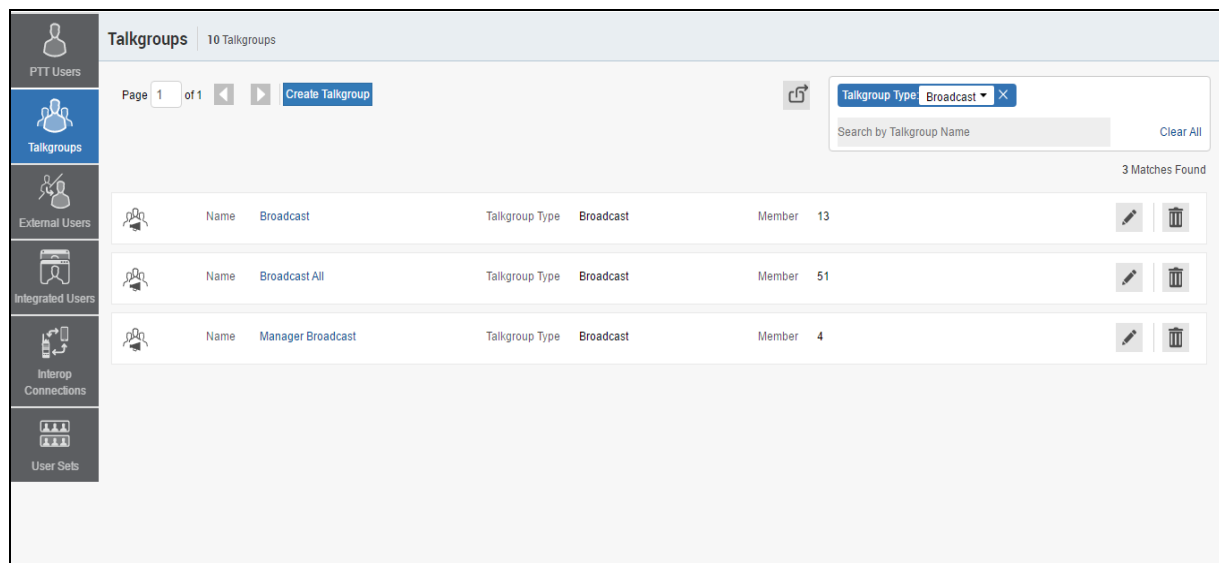

8.1. View a Broadcast Group

- [View a Broadcast Group](#)
- [Create a Broadcast Group](#)
- [Edit a Broadcast Group](#)
- [Delete Broadcast Members in a Talkgroup](#)
- [Delete a Broadcast Group](#)

From Talkgroups work area, you can view all Broadcast groups.

The work area displays the name, type of the talkgroup, and number of members. You can change the name but you cannot change the type of the talkgroup or number of members.

For common icons, refer to the "[Common Icons](#)" section of this document.

The screenshot displays the 'Talkgroups' management interface. On the left is a navigation sidebar with icons for PTT Users, Talkgroups (selected), External Users, Integrated Users, Interop Connections, and User Sets. The main content area shows 'Talkgroups' with a sub-header '10 Talkgroups'. Below this is a search bar with 'Talkgroup Type' set to 'Broadcast' and a search input field. A table lists three broadcast groups:

Name	Talkgroup Type	Member	Actions
Broadcast	Broadcast	13	[Edit] [Delete]
Broadcast All	Broadcast	51	[Edit] [Delete]
Manager Broadcast	Broadcast	4	[Edit] [Delete]

View a Broadcast Group

For details, refer to the "[Search](#)" section of this document.

8.2. Create a Broadcast Group

Perform the following steps to create a Broadcast group.

1. Click the **Create Talkgroup** button from the Talkgroups work area to add a talkgroup.
2. Select the **Broadcast Group** option from the **Talkgroup Type** drop-down.
3. Click **Assign Broadcasters** button. The **Assign Broadcasters** pop-up window displays.

Note: The Broadcast group can have more than one broadcaster. You must select at least one broadcaster for the talkgroup.

4. Select one or more broadcasters that you want to assign as a broadcaster to the talkgroup.

The screenshot shows the 'Assign Broadcasters' pop-up window. The main window displays 'Talkgroup Details' for a group named 'Broadcast' with 13 members and 1 broadcaster. The 'Assign Broadcasters' window shows a search bar and a table with one entry: Bob Milligan (919998433168).

Name	Phone Number
Bob Milligan	919998433168

Assign Broadcasters

5. Click the **Assign** button.

Note: Any client that was created in releases prior to 7.10 will not be allowed to be assigned as broadcasters.

6. Type a name for the talkgroup in the **Name** field.
7. Follow the same steps to add the members to the talkgroup as described in the "[Create a New Talkgroup](#)" section of this document.
8. Click the **Save** button. A confirmation window displays, "You are about to save a broadcast group. Broadcast group allows the broadcaster(s) of the talkgroup to make a one way call to the members. Do you want to continue?"
9. Click **OK** and a success message displays stating that the 'Broadcast Group' added successfully. The broadcast group is now added to the Talkgroup list.

Note: Broadcast group will not be synced to the handset users of the broadcast group.

8.3. Edit a Broadcast Group

Perform the following steps to rename the talkgroup or change the broadcaster.

1. From Talkgroups work area, click the **Edit** icon associated with the Broadcast group to edit.
2. To change the name of the Broadcast group, enter a new name in the **Name** field.
3. To change the broadcaster, click the **Broadcaster** tab.

Note: If you need to delete a broadcaster, select the check box associated with the broadcaster to delete. Then click the **Delete** icon.

4. To assign a broadcaster, click the **Assign Broadcaster** button. The **Assign Broadcasters** pop-up window displays.

The screenshot displays the 'Talkgroup Details' page for a 'Broadcast' talkgroup. The page includes a sidebar with navigation options: PTT Users, Talkgroups (selected), External Users, Integrated Users, Interop Connections, and User Sets. The main content area shows the talkgroup name 'Broadcast', type 'Broadcast', and a 'Broadcast to DND?' checkbox. Below this are tabs for 'Members' (13) and 'Broadcasters' (1). A search bar and pagination controls are present. A table lists one member: Bob Milligan with phone number 919998433168. An 'Assign Broadcasters' pop-up window is overlaid on the right, featuring a search bar, pagination, and an 'Assign' button. The pop-up window also displays a table with one broadcaster: Bob Milligan with phone number 919998433168.

Assign Broadcasters

5. Select the Broadcaster you want to assign to the talkgroup.
6. Click **Assign**.
7. Click **Save** to save your changes.

8.4. Delete Broadcast Members in a Talkgroup

1. From Talkgroups work area, click the **Edit** icon next to the Broadcast group.
2. Select the **Members** tab, click the **Tools** icon, and select the check box associated with the member to delete.
3. Click the **Delete** icon to remove talkgroup members.
4. Click **Save** to save.

8.5. Delete a Broadcast Group

1. From the Talkgroups work area, click the **Delete** icon associated with the talkgroup to delete. A confirmation message displays, “*You are about to delete Broadcast Group<Talkgroup Name>’ from the system. It shall be removed from Broadcaster’s client.*”
2. Click **OK** to continue. A success message displays.

9. Dispatch

The Dispatch allows a dispatcher to operate from a centralized corporate facility and manage the activities for a set of mobile PTT clients (also called fleet members) working in the field. This enables an organization to effectively manage day-to-day dispatch operations and rapidly respond to incidents, urgent situations, customer requests, facility events, and other situations that require quick actions.

Dispatch Group icons are identified in the "[Talkgroup Icons](#)" section of this document.

For common icons, refer to the "[Common Icons](#)" section of this document.

This section is organized as follows:

- [View Dispatchers](#)
- [Manage Contacts for Dispatchers](#)
- [Generate an Activation Code for a Dispatcher](#)
- [Manage Dispatch Groups](#)
- [Create a Dispatch Group](#)
- [Change a Dispatcher for a Dispatch Group](#)
- [Delete a Dispatch Group](#)
- [Migrate Desktop Dispatch to Web Dispatch](#)

9.1. View Dispatchers

Name	Facilities	Talkgroup Type	Dispatch	Member
Name	Facilities	Talkgroup Type	Dispatch	Member 53
Name	Field Service	Talkgroup Type	Dispatch	Member 99
Name	Urgent Response	Talkgroup Type	Dispatch	Member 6

View Dispatchers

The work area lists the name, type of the talkgroup, and number of members. You can change the name but you cannot change the type of the talkgroup or number of members.

You can search on dispatchers by filtering in the work ware as explained in the "[Search](#)" section of this document.

For common icons, refer to the "[Common Icons](#)" section of this document.

9.2. Manage Contacts for Dispatchers

The contacts management for Dispatchers is same as any other client. Refer to the "[Manage Contacts](#)" section of this document for more details. You can assign a dispatch as a contact for another dispatcher.

9.3. Generate an Activation Code for a Dispatcher

The Dispatch requires a special type of activation using an activation code. You have to generate and communicate the activation code either using email or verbally. Refer to the "[Generate Activation Codes](#)" and "[Generate Activation Codes for Multiple Users](#)" sections for details on how to generate an activation code.

9.4. Manage Dispatch Groups

Dispatch groups are talkgroups that you can create for the Dispatch clients.

9.4.1. Create a Dispatch Group

1. Click the **Create** Talkgroup button from the *work* area to add a talkgroup.
2. Select the **Dispatch** from the Talkgroup Type drop-down.

The screenshot shows the 'New Talkgroup' interface. At the top, there are 'Save' and 'Cancel' buttons. The form fields include 'Talkgroup Name', 'Talkgroup Type' (set to 'Dispatch'), and 'Avatar' (set to 'Default'). Below these are tabs for 'Members', 'Supervisors', and 'Dispatchers'. A search bar is present with the text 'Search by Name or Phone Number'. A table with columns 'Name', 'Phone Number', 'User Type', 'In Call', 'Call Initiation', and 'Call Receiving' is shown, with a message 'Please assign a Dispatcher(s)'. The page number 'Page 0 of 0' and '0 Dispatcher' are also visible.

Create a Dispatch Group

3. Click the **Assign Dispatchers** icon to assign a dispatcher to the talkgroup.

The screenshot displays the 'Talkgroup Details' interface for a talkgroup named 'DispatchDT'. The interface includes a sidebar with navigation options like 'PTT Users', 'Talkgroups', 'External Users', 'Integrated Users', 'Interop Connections', and 'User Sets'. The main area shows the talkgroup name, type, and counts for members, supervisors, and dispatchers. A table lists members with columns for Name, Phone Number, Client Type, and In Call status. An 'Assign Dispatchers' modal is open, showing a search bar and a list of contacts with checkboxes for selection.

Name	Phone Number	Client Type	In Call
0_Anudeep_WD1	+917777700050	Dispatch	Listen and Talk
0_Anudeep_WD2	+917777700051	Dispatch	Listen and Talk
0_Anudeep_WD3	+917777700052	Dispatch	Listen and Talk
0_WDSecurityTest	+917777700053	Dispatch	Listen and Talk
Nidhi_Dispatch	+917777700008	Dispatch	Listen and Talk
Piyush_WD	+917777700007	Dispatch	Listen and Talk

Name	Phone Number
<input type="checkbox"/> PCdisp_upg_itg	+917777700004
<input type="checkbox"/> PCdisp_upg_itg	+917777700019
<input type="checkbox"/> PCdisp_upg_itg	+917777700020
<input type="checkbox"/> Piyush_WD	+917777700007
<input type="checkbox"/> plm	+917777700031
<input checked="" type="checkbox"/> tulasi	+917777700010
<input type="checkbox"/> Tulasi_WDS_New	+919987944912
<input checked="" type="checkbox"/> veerendra	+917777700011
<input type="checkbox"/> yuga	+917777700015
<input type="checkbox"/> yugandhar	+917777700017

Assign Dispatcher

- Follow the same steps to add the members to the talkgroup as described in the ["Create a New Talkgroup"](#) section of this document.
- Follow the same steps to change the call permissions for a member, see ["Change Call Permissions"](#) section in the document.
- Follow the same steps to add supervisors to the talkgroup as described in the ["Supervisory Override and Location Capabilities"](#) section of this document.
- Type a name for the talkgroup in the Talkgroup Name field.
- Click **Save** to continue.
OR
Click **Cancel** to discard the changes.
- If you selected **Save**, a confirmation message displays, *"Confirm the automatic contacts assignment"*
If the checkbox is checked, then following is done for you automatically.
 - The members are assigned as contacts to dispatcher(s)
 - The dispatcher(s) is(are) assigned as contacts to each member
 - The dispatcher(s) is(are) assigned as contacts to each other

Note that the dispatcher cannot get location of a talkgroup member unless the member is in the contact list. Click 'Ok' to continue and 'Cancel' to abort the operation."

Note: Only the location of contacts assigned to the dispatcher is available on the Dispatch client. As such, if you want the talkgroup members' location to be available to the Dispatcher, be sure to check the dispatcher confirmation check box.

- Click **OK** to continue. A success message displays.
OR
Click **Cancel** to discard the changes.

9.4.2. Change a Dispatcher for a Dispatch Group

Perform the following steps to change a dispatcher for a Dispatch Group.

1. Click the **Edit** icon associated with the Dispatch Group from the **Talkgroups** work area.
2. Click the **Dispatchers** tab.

Note: If you need to delete a dispatcher, click the **Tools** icon and select the check box associated with the dispatcher to delete. Then click the **Delete** icon.

3. Click the **Assign Dispatchers** button. The Assign Dispatchers pop-up window displays.

The screenshot shows the 'Assign Dispatchers' pop-up window. The main window displays 'Talkgroup Details' for 'DispatchDT' with 6 dispatchers. The pop-up window shows a list of contacts with checkboxes for selection. Two contacts, 'tulasi' and 'veerendra', are selected.

Name	Phone Number	Client Type	In Call
0_Anudeep_WD1	+917777700050	Dispatch	Listen and Talk
0_Anudeep_WD2	+917777700051	Dispatch	Listen and Talk
0_Anudeep_WD3	+917777700052	Dispatch	Listen and Talk
0_WDSecurityTest	+917777700053	Dispatch	Listen and Talk
Nidhi_Dispatch	+917777700008	Dispatch	Listen and Talk
Piyush_WD	+917777700007	Dispatch	Listen and Talk

Name	Phone Number
<input type="checkbox"/> PCdisp_upg_itg	+917777700004
<input type="checkbox"/> PCdisp_upg_itg	+917777700019
<input type="checkbox"/> PCdisp_upg_itg	+917777700020
<input type="checkbox"/> Piyush_WD	+917777700007
<input type="checkbox"/> plm	+917777700031
<input checked="" type="checkbox"/> tulasi	+917777700010
<input type="checkbox"/> Tulasi_WDS_New	+919987944912
<input checked="" type="checkbox"/> veerendra	+917777700011
<input type="checkbox"/> yuga	+917777700015
<input type="checkbox"/> yugandhar	+917777700017

Assign Dispatcher

4. Select a dispatcher.
5. Click **Assign**.
6. A confirmation message displays, "Confirm the automatic contacts assignment. If the checkbox is checked, then following is done for you automatically.
 1. The members are assigned as contacts to dispatcher(s)
 2. The dispatcher(s) is(are) assigned as contacts to each member
 3. The dispatcher(s) is(are) assigned as contacts to each other

Note that the dispatcher cannot get location of a talkgroup member unless the member is in the contact list. Click 'Ok' to continue and 'Cancel' to abort the operation."
7. Select the **Dispatcher Confirmation** check box to allow the fleet members to receive dispatcher information, and for the dispatcher to get the talkgroup members as contacts automatically.
8. Click **OK** to continue. A success message displays.
OR
Click **Cancel** to discard the changes.

9.4.3. Delete a Dispatch Group

1. From the Talkgroups work area, click **Delete** icon associated with the dispatch group to delete. A delete confirmation window displays. A confirmation message displays, "*Confirm the automatic contacts assignment*
If the checkbox is checked, then following is done for you automatically.
 1. The members are removed from contact list of the dispatcher(s).
 2. Dispatcher(s) is(are) removed from contact list of each member.
 3. Dispatcher(s) is(are) removed from contact list of the other dispatcher(s).*Caution - This will remove the member as contact irrespective of whether the contact is assigned through this talkgroup, some other talkgroup, and sub-list or directly by you.*
Click 'Ok' to continue and 'Cancel' to abort the operation."
2. Select the **Dispatcher Confirmation** check box to remove the dispatcher as a contact from the talkgroup and the previously assigned talkgroup members as contacts from the dispatcher.
3. Click **OK** to continue. A success message displays.
OR
Click **Cancel** to discard the changes.

9.5. Migrate Desktop Dispatch to Web Dispatch

The Corporate Admin can migrate the Desktop Dispatch user to Web Dispatch user. Migration to Web Dispatch will no longer allow the dispatcher to use the Desktop Dispatch. The dispatcher needs a valid email id and browser to use the Web Dispatch. For supported browser, refer to "[Required Browsers](#)" section of this document. Once migrated to Web Dispatch, the Central Admin Tool will not show the Generate Activation and Resend Activation icons for that user. The dispatcher needs to verify the link received in their registered email and follow the process as mentioned in the Dispatch user guide to sign into the Web Dispatch. Once account is verified by the dispatcher, the Pending Verification icon in the Central Admin Tool will change to Verified state.

To migrate the Desktop Dispatch to Web Dispatch, do the following:

1. Form the PTT User work are, click the edit icon associated with the user.
2. Check the Web Dispatch checkbox. A warning message is displayed.

Warning Please confirm that you want the dispatcher to access Dispatch Console through a web browser only. The dispatcher will not longer be able to access using the Desktop application anymore.

Confirmation Message - Migration to Web Dispatch

Admin can grant permissions for Messaging, Location History and Geofence to the dispatcher once migration is finished. To do this check the checkbox(ex) next to the features and click the **Save** button.

Note: The micro service feature checkboxes will appear only for the activated Web Dispatchers.

PTT User Details Adrian +9999200000091

Web Dispatch User

Corporate Admin can assign the Web Dispatch anytime to a different user. To do this, the Corporate Admin needs to change the email id in the **User Id** box and click the **Save** button. Clicking the **Save** button will display a confirmation message that the phone number is assigned to a new user.

10. Manage External Users

The external users could be the vendors or the partners of the corporation. You can add a phone number signed up for Push-to-Talk (PTT) service from corporations other than yours. The external users in your corporation are shown in the External Users work area.

External Users icons are identified in the "[External Users Icon](#)" section of this document.

For common icons, refer to the "[Common Icons](#)" section of this document.

For details on searching, refer to the "[Search](#)" section of this document.

This section is organized as follows:

- [View an External Users](#)
- [Add an External User](#)
- [Delete an External User](#)
- [Import External Users](#)
- [Using the Export Operation](#)

10.1. View an External Users

The External Users work area has options to search for a specific external users by Name and Phone Number. You can also use the search operation using specific parameters, refer to the "[Search](#)" section of this document.

You can use the **Export** icon to export the page data in a CSV format. For more details, see the "[Using the Export Operation](#)" section in this document.

You can use the **Import** icon to bulk import the external contacts from a CSV file to the corporation. For more details, see the "[Import External Users](#)" section of this document.

Note: To edit the name, double-click the Name field and change the name as desired.

10.2. Add an External User

1. Click the **Add External User** button from the **External Users** as shown below.

The screenshot shows the 'External Users' management interface. On the left is a navigation sidebar with icons for PTT Users, Talkgroups, External Users (selected), Integrated Users, Interop Connections, and User Sets. The main content area is titled 'External Users' and shows '10 External Users'. It includes a pagination control (Page 1 of 1) and an 'Add External User' button. A table lists the following users:

Name	Phone Number
Abhish	+918880001797
Albert	+918880001793
Andrew	+918880001783
Benny	+918880001796
Bob	+918880001794
John	+918880001773
Mark	+918880001778

The 'New External User' modal window on the right contains two input fields: '* Name' and '* Phone Number', followed by 'Save' and 'Cancel' buttons.

Add an External User

2. Enter the name in the **Name** field. The name should be less than or equals to 30-characters long and it should have at least one non-space character. Duplicate names are allowed in the corporation but you will receive a warning message.

Note: Dispatcher, Interop user, Interop Talkgroup, and Administrator users cannot be added as an external user.

3. Enter a valid User or Administrator and User PTT user's Phone number in the **Phone Number** field.

Note: Enter 10-digits in the case of local numbers. Add the + prefix and the country code in the case of an international number.

4. Click **Save** to add an external contact to the corporation.

10.3. Delete an External User

1. Click the **Delete** icon associated with the External User in the work area. A confirmation message is displayed, "You are about to delete External Contact '<Name>' from the system. Since External Contacts are shared with other Corporate Admin, this might affect users, user sets or talkgroups that are not managed by you. Are you sure?"
2. Click **OK** on the confirmation message window that appears.

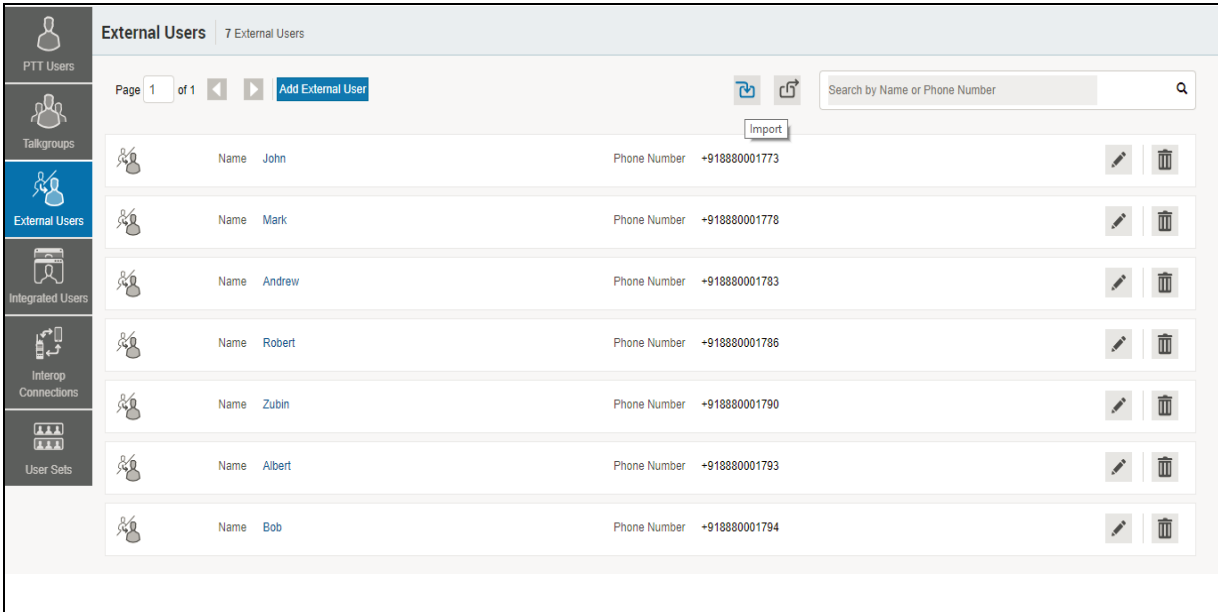

10.4. Import External Users

The import feature allows you to import the external contacts from a CSV or Excel file in bulk to the CAT. The information in the CSV or Excel file must have the following columns to import the external users to the Central Admin Tool:

- Name of the external user
- Phone number of the external user.

To import the users to the Central Admin Tool, do the following:

1. From the **External Users** work area, click the **Import** icon.

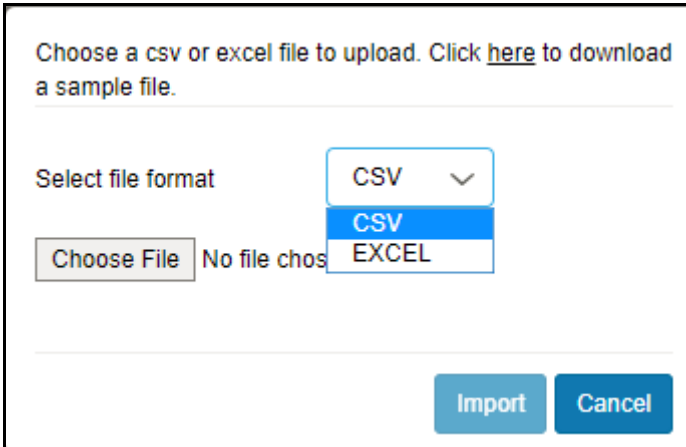

The screenshot shows the 'External Users' section of the Central Admin Tool. The interface includes a sidebar with navigation options: PTT Users, Talkgroups, External Users (highlighted), Integrated Users, Interop Connections, and User Sets. The main content area displays a table of 7 external users. At the top right of the table, there is an 'Import' button. Below the table, the text 'Import External Users' is visible.

Name	Phone Number
John	+918880001773
Mark	+918880001778
Andrew	+918880001783
Robert	+918880001786
Zubin	+918880001790
Albert	+918880001793
Bob	+918880001794

Import External Users

2. A choose file window opens.

The screenshot shows a dialog box titled 'Choose file - Import'. The text inside reads: 'Choose a csv or excel file to upload. Click [here](#) to download a sample file.' Below this text, there is a 'Select file format' dropdown menu with 'CSV' selected. A 'Choose File' button is visible next to the text 'No file chosen'. At the bottom right, there are 'Import' and 'Cancel' buttons.

Choose file - Import

Note: Click [“here”](#) in the message to view the sample file.

3. From the **Select file format** drop-down choose the format.
4. Click **Choose file**. A file window opens.
5. Select the CSV or Excel file and click **Open**.
6. Click Import to import the contacts.

10.5. Using the Export Operation

For more information, refer to the ["Using the Export Operation"](#) section in this document.

11. Manage Integrated Users

This work area displays the list of Integrated Push-to-Talk (PTT) users within your corporation.

Integrated Users icons are identified in the "[Integrated Users Icons](#)" section of this document.

For common icons, refer to the "[Common Icons](#)" section of this document.

This section is organized as follows:

- [View an Integrated User](#)
- [Edit an Integrated User](#)
- [Re-Sync a User](#)
- [Generate Activation Codes](#)
- [Regenerate an Activation Code](#)
- [Resend an Existing Generated Activation Code without Regenerating](#)
- [Manage User Sets](#)
- [Manage Contacts](#)
- [Manage Talkgroups](#)
- [Select Multiple Integrated Users](#)
- [Using the Export Operation](#)
- [Enable Authorization for User Monitoring Features](#)

11.1. View an Integrated User

To view a user, click the ***Integrated Users*** menu from the CAT navigation. The Integrated Users main screen is displayed as shown below.

Name	Phone Number	Action
Indy Gibson	919998433152	[Edit] [Delete]
Larry Johnson	919998433153	[Edit] [Delete]
Joe Foster	919998433150	[Edit] [Delete]
CORP8886	919998433151	[Edit] [Delete]
Rachel Thomas	919998433221	[Edit] [Delete]
Alex Voortman	919998433222	[Edit] [Delete]
Calvin Jameson	919998433223	[Edit] [Delete]

Integrated Users Main Screen

Note: To edit the name, double-click the Name field and change the name as desired.

The Integrated Users work area has options to search for a specific partners by Name, Phone Number, State and Type. For details, refer to the ["Search"](#) section of this document.

The following types of users are displayed in the Integrated Users section:

- **Integrated Mobile** – Have integrated PTT with their mobile application and can be used as PTT clients.
- **Integrated Tracking** – Have integrated PTT with existing application where tracking and dispatch like functionality are implemented and can be used as PTT clients.
- **Integrated Web** – Have integrated PTT with their applications and can be used as PTT clients.

You can view the following information on clicking the **Show More for All** icon to view an individual Integrated Users specific details:

- Name
- Phone Number
- Permission
- Client Type
- State
- Activation Code
- Expiring On

You can use the **Export** to export the page data in a CSV format. For more details, see the ["Using the Export Operation"](#) section in this document.

To select one or multiple users, click the **Bulk Operations** icon and click the check boxes associated with the users you want to select.

For common icons, refer to the ["Common Icons"](#) section of this document.

11.2. Edit an Integrated User

To edit a single Integrated Users, click the **Edit** icon associated with the user name from the work area. The user profile is displayed.

Note: To edit the name, double-click the Name field and change the name as desired.

Integrated User Details | 9999200000011 | +9999200000011

Name: Phone Number: +9999200000011 Billing Number: +919999999992

Single Integrated User Selection

The following details of a user profile information is shown as follows:

- **Name** – Displays the name of the user. This field can be edited.
- **Phone Number** – Displays the number of the user. This field cannot be edited.
- **Billing Phone Number** – Displays the billing phone number of the user. This field cannot be edited. For more information, refer to the "[Billing Phone Number](#)" section in this document.
- **Permission** – Displays the type of the user. This field can be edited. For more information, refer to the "[Permission](#)" section in this document.
- **State** – Displays the activation state of the user. This field cannot be edited. For more information, refer to the "[State](#)" section in this document.
- **Expiring On** – Displays the expiration date of the activation code. This field cannot be edited. For more information, refer to the "[Expiring On](#)" section in this document.
- **Client Type** – Displays the client type of the user. This field can not be edited. For more information, refer to the "[Client Type](#)" section in this document.
- **Email ID** – Displays the email ID of the user. This field can be edited. For more information, refer to the "[Email ID](#)" section in this document.
- **Activation Code** – Displays the activation code of the user. This field cannot be edited. For more information, refer to the "[Activation Code](#)" section in this document.

You can use the **Show More for All** option to view the details of all the users expanded at once and export the same in a CSV format.

The user's profile is shown on the top portion of the work area, which consists of the following information.

Billing Phone Number

The following types of users are provisioned in the system in the form of license packs.

- Integrated Mobile
- Integrated Tracking
- Integrated Web

The billing system assigns a Billing Phone Number to these license packs. The system generates Pseudo Phone Numbers for each Billing Phone Number.

The Billing Phone Number cannot have PTT service and thus is not available in the work area.

In case, the user is not a license pack user, Phone Number and the Billing Phone Number are the same.

Permission

Select the new user **Permission** from the drop-down.

You can manage Administrator or Administrator and User types only. You are not allowed to manage Public user types. Subscription types can have the following values.

- **Administrator** – These users will only receive contacts and talkgroups from a corporate admin.
- **Administrator and User** – These users can receive contacts and talkgroups from a corporate admin and have the capability to define and manage their own contacts and talkgroups. They can make and receive calls outside the corporation.

State

The State field represents the service status. It is assigned by the billing system and can have one of the following options.

- **Provisioned** – The user has signed up for a service but has not yet activated the client for use.
- **Activated** – The user has downloaded and activated the client and has the necessary configuration for the user to start using the service.
- **Suspended** – The user's service is currently suspended. The user can maintain their configuration, contacts, and talkgroups but cannot use the service.

Client Type

The Client Type represents the read-only information about the client type are as follows:

- Integrated Mobile
- Integrated Tracking
- Integrated Web

Expiring On

The Expiring On is a system generated once the Generate Activation Code button is selected. The activation code typically expires within seven days from generation.

Email ID

Enter or Update the user e-mail in the Email ID field. The activation code is sent to this Email ID.

Activation Code

The clients other than Handset Standard, Handset PTT Radio, Wi-Fi Radio, Interop User, and Interop Talkgroup need a special code for activation. This is called an activation code.

Interop User and Interop Talkgroup do not need an activation code and these clients will be in 'Active' state immediately after provisioning.

For Handset and Interop Radio clients, generating an activation code is optional and required only if the user wants to activate over the Wi-Fi network. An example of this would be a department store where there is no cellular coverage indoors. Refer to "[Generate Activation Codes](#)" on how to generate an activation code for handset users activating over Wi-F.

11.3. Re-Sync a User

For more information, refer to the "[Re-sync a Device](#)" section in this document.

11.4. Generate Activation Codes

1. From the Integrated Users work area, click the **Edit** icon associated with the user.

The screenshot displays the user management interface. At the top, a light blue confirmation banner reads: "Confirmation Activation code successfully generated. Would you like to send an email?" with "OK" and "Cancel" buttons. Below this, the user profile for "Integrated Mobile" is shown with the following details:

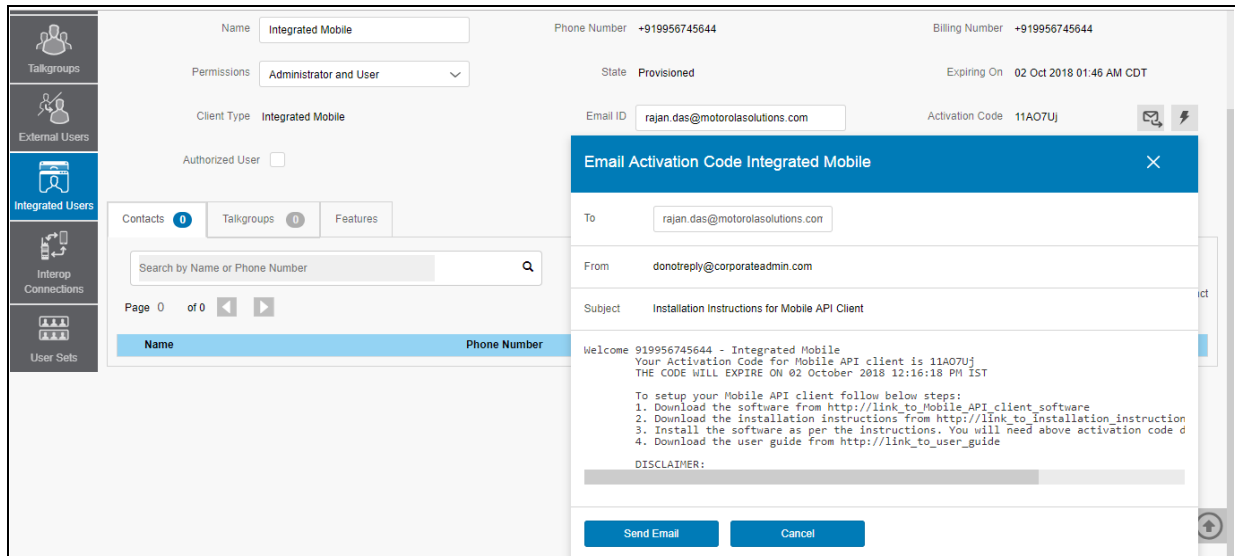

- Name: Integrated Mobile
- Phone Number: +919956745644
- Billing Number: +919956745644
- Permissions: Administrator and User
- State: Provisioned
- Expiring On: 02 Oct 2018 01:45 AM CDT
- Client Type: Integrated Mobile
- Email ID: rajan.das@motorolasolutions.com
- Activation Code: JD5uW6y
- Authorized User:

Below the profile, there are tabs for "Contacts", "Talkgroups", and "Features". A search bar is present with the text "Search by Name or Phone Number". At the bottom, a table header is visible with columns for "Name", "Phone Number", and "Client Type".

Generate Activation Code for an Integrated User

2. Click the **Generate Activation Code** icon. A pop-up message window is displayed, "Activation code successfully generated. Would you like to send an email."

- Click **OK** to send the new activation code to user's Email ID. A Send Email with Activation Code to Handset Client pop-up window displays.

Send New Activation Code to an Integrated User

- Click the **Send Email** button to send the newly generated activation code.
- After generating the activation code, the activation code expiry date appears on the **User Profile** page in the **Expiring On** field.

11.4.1. Regenerate an Activation Code

- Click **Regenerate Activation Code** on the **User Profile** page to regenerate the activation code. Regenerating an activation code for already activated clients deactivates the client, thus a confirmation message window is displayed, and *“You have selected to generate a new activation code. Existing activation code will be invalidated. Client will have to re-activate with new activation code. You do not have to save the changes since the new activation codes are automatically saved after generation.”*
- Click **OK** to confirm for the regeneration of a new activation code. A pop-up message window is displayed, *“Activation code successfully generated. Would you like to send an email?”*
- Click **OK** to send the new activation code to the user's Email ID. A Send Email with Activation Code to Handset Client popup window is displayed.

11.5. Manage User Sets

A user set is a faster way to program multiple handsets easily. It is a logical set of users where each member of the user set is assigned as a contact to other. The user sets are only visible and manageable from the Central Admin Tool (CAT).

For more information, refer to the "[Manage User Sets](#)" section in this document.

11.6. Manage Contacts

For more information, refer to the "[Manage Contacts](#)" section in this document.

11.7. Manage Talkgroups

For more information, refer to the "[Manage Talkgroups](#)" section in this document.

11.8. Select Multiple Integrated Users

To select multiple users, you can select and click the users from the work area individually by clicking the **Tools** icon and clicking the **Select All** check box for all records or clicking more than one individual check box.

The users are listed alphabetically in the work area. You can navigate through the pages by using the arrows at the top-left of the page.

Integrated Users 31 Integrated Users

Select All Page 1 of 1

Search by Name or Phone Number

Select Multiple Integrated Users

You can change the Type as explained below:

1. Select the **Change Type** icon to display the following options for the selection.
 - Administrator
 - Administrator and User

Note: You will see an Information message based on your selection of Administrator or Administrator and User type selected. For example: *“You are about to change the types for all the selected users to Administrator. Are you sure?”*

2. Click **OK** to save the changes.

11.9. Using the Export Operation

For more information, refer to the ["Using the Export Operation"](#) section in this document.

11.10. Enable Authorization for User Monitoring Features

For more information, refer to the ["Enable Authorization for Remote Supervision Features"](#) section in this document.

12. Manage Interop Connections

Interop Connection is special type of user, which facilitates communication between Land Mobile Radio (LMR) and Push-to-Talk (PTT) networks. These users are restrictive and corporate admin cannot assign any contacts to these users. Because of this, the assign contacts and assign user sets buttons are disabled. In addition, these users can be members of only one talkgroup. The addition of Interop users to more than one talkgroup is not allowed.

There are following types of Interop Connection users:

1. LMR User - These are used for the one to one communication during a P25 interoperability.
2. LMR Talkgroup - Provides link between Broadband PTT talkgroup and LMR talkgroup during an Interop call.

LMR User can be assigned as a contact to a Broadband PTT user for one to one communication. The LMR User name assigned by you is the talker identity during those calls. LMR User cannot be added to a Broadband PTT Talkgroup.

LMR Talkgroup can be linked to one and only one Broadband PTT Talkgroup. LMR Talkgroup name assigned by you is used as the talker identity during the group call. In order to communicate on an Interop call, a Broadband PTT user must have Interop User MRC feature provisioned from the Billing

Interface. There is a special additional icon  displayed for the PTT user when the feature is provisioned. Even if the user without Interop User MRC feature is allowed to be added in a linked Broadband PTT Group the Interop call is not terminated to a PTT user unless Interop User MRC feature is provisioned for the user.

Interop User icons are identified in the "[Interop Users Icons](#)" section of this document.

For common icons, refer to the "[Common Icons](#)" section of this document.

This section is organized as follows:

- [View Interop Connection](#)
- [Create a New Interop talkgroup](#)
- [Edit an Interop talkgroup](#)
- [Delete an Interop talkgroup](#)

12.1. View Interop Connection

Interop connection are shown with an icon under the **Interop Connection** work area.

1. From the **Interop Connection** work area, click the **Show More** icon associated with the Interop connections icon to view the Interop connection details.

Note: To edit the name, double-click the Name field and change the name as desired.

Name	Sales	Phone Number	Client Type	Interop User
Sales		919998433154	Interop User	
Marketing		919998433155	Interop User	
Delivery zone 1		919998433156	Interop User	
Delivery zone 2		919998433157	Interop User

EMS		919998433159	Interop Talkgroup	
Fire		919998433160	Interop Talkgroup	

View Interop Connection

12.2. Create a New Interop talkgroup

1. From the Talkgroups work area, click the **Create** Talkgroup button to create a new Interop talkgroup as shown below.

Create a New Interop Talkgroup

2. Select the Talkgroup Type as **Standard Talkgroup** from the drop-down. The **Talkgroup Details** page displays.
3. Enter the name in the **Name** field.
4. Select an Avatar from the drop-down.

- Click the **Assign Members** button to assign members. The Assign Members pop-up window is displayed.
- Select the individual talkgroup members to be assigned to the Interop talkgroup. The talkgroup is changed to an Interop talkgroup (indicated by an Interop icon) only when there is one Interop added to it.

Assign Members to a New Interop Talkgroup

- Click **Assign** to add the assigned members to the Interop talkgroup.
- Click **Create** to create the Interop talkgroup. A confirmation message displays, *“Talkgroup will be created and distributed to members. Are you sure? Note: DO NOT CREATE a talkgroup with all external contacts only. Make sure that there is at least one internal user in it.”*
- Click **OK**.

12.3. Edit an Interop talkgroup

Perform the following steps to edit an Interop talkgroup.

- From the **Interop Connections** work area, click the **Edit** icon associated with the Interop Talkgroup that you want to edit.
- To change the name of the Interop talkgroup, enter a new name in the **Name** field.
- To change the members, click the **Manage Members** sub-tab.
- To add a member, click the **Assign Members** button. The Assign Members pop-up window displays.
- Click **Assign** once you are done picking the members.

12.4. Delete an Interop talkgroup

The procedure for deletion of Interop talkgroup is the same as the procedure described in the ["Delete a Talkgroup"](#) section of this document.

13. Manage User Sets

A user set is a faster way to program multiple handsets easily. It is a logical set of users where each member of the user set is assigned as a contact to other. The user sets are only visible and manageable from the Central Admin Tool (CAT).

For common icons, refer to the "[Common Icons](#)" section of this document.

This section is organized as follows:

- [View a User Set](#)
- [Create a New User Set](#)
- [Edit a User Set](#)
- [Rename a User Set](#)
- [Add Members to a User Set](#)
- [Remove Members from a User Set](#)
- [Save Changes to a User Set](#)
- [Delete a User Set](#)
- [Manage User Sets Assigned to PTT Users, Talkgroups, or Integrated Users](#)
- [Assign a User Set](#)
- [Remove a User Set](#)
- [View User Set Members](#)
- [Assign More than 250 Contacts to Each User through User Sets](#)
- [View User Set Distribution](#)

13.1. View a User Set

1. In the navigation area, click the **User Set** button to display all user sets as shown below.

The screenshot shows the 'User Sets' management page. On the left is a navigation sidebar with icons for PTT Users, Talkgroups, External Users, Integrated Users, Interop Connections, and User Sets (which is highlighted). The main content area has a header 'User Sets | 3 User Sets'. Below the header is a pagination bar showing 'Page 1 of 1' and a 'Create User Set' button. To the right of the pagination is a search bar labeled 'Search by User Set Name'. The main area contains a table with three rows, each representing a user set:

Name	Member	Actions
UserSet-1	50	[Add] [Edit] [Delete]
UserSet-2	1	[Add] [Edit] [Delete]
UserSet-3	50	[Add] [Edit] [Delete]

View User Sets

Note: For some small corporations, auto-pairing feature creates a user set named '*all-users-user-set*' automatically when there is no corporate administration access. As the auto-paired corporation grows, the corporate administration access is required to manage the contacts and talkgroups. Not all corporations are auto-paired. If your corporation is auto-paired previously and you are given an access to Admin tool now, that means your corporation is no longer auto-paired, but you can manage the previously created auto-paired user set as any other User Set.

13.2. Create a New User Set

1. In the navigation area, click the **User Set** button to display all user sets as shown below.

This screenshot is identical to the one above, showing the 'User Sets' management page with the same navigation sidebar, header, pagination, search bar, and table of three user sets.

View User Sets

2. Click the **Create User Set** button. A Create User Set window is displayed as shown below.

Create User Set

3. Enter the user set name in the **User Set Name** field. The name should be less than or equals to 30-characters long and it should have at least one non-space character. Duplicate names are not allowed in the corporation.
4. Click the **Assign Members** button to assign members. The Assign Members pop-up is displayed as shown below.

<input type="checkbox"/>	Name	Phone Number
<input type="checkbox"/>	Andy Graves	919998433167

Assign Members to a User Set

5. Select the members to be added to the user set by checking the applicable check boxes. Only those members that are not already a member of a user set are available for selection. You can pick a maximum of 200 members at a time for an addition. You can also select all members by clicking on the check box before the Name header, which functions as **Select All** check box.
6. Click **Assign**. The members selected for addition are displayed in the **Members** tab and the total members count is increased accordingly.

7. Click **Save** to add the user set. A confirmation message displays, “User Set will be created and distributed to all the members. Are you sure? DO NOT CREATE a User Set with all external contacts only. Make sure that there is at least one internal user in it.”
8. Click **OK** to continue on the confirmation message that displays. The updated user set will be synced to the user’s handset.

Note: Each member of the user set is assigned as a contact with other members. Thus, if you have created a user set with three members: Bob, Rob, and Joe; Bob will get Rob and Joe as contacts, Rob will get Bob and Joe as contacts and Joe will get Bob and Rob as contacts.

Dispatch and Interop connections cannot be members of a user set.

Interop User and Interop Talkgroup and cannot be a member of a user set and thus are not available for selection on Pick Contacts Window.

The user set is not created until the Add button is clicked. The user set must have at least two members in it. The total members that can be added to a user set are 250, but you can add a maximum of 50 new members to a user set in one add operation.

13.3. Edit a User Set

13.3.1. Rename a User Set

1. In the navigation area, click the **User Sets** button.
2. Click the **Edit** icon associated with the User Set that you want to edit.

Remove Members from a User Set

13.3.4. Save Changes to a User Set

Perform the following steps to save changes to a User Set.

1. A delete confirmation message is displayed. Click **OK** to continue on the confirmation message that displays.

13.4. Delete a User Set

Perform the following steps to delete a user set.

1. Click the **User Sets** button.
2. Click the **Delete** icon associated with the User Set to delete shown below. A confirmation message displays, *"You are about to delete User Set "<Name>" from the system. It shall be deleted from it's members as well as from non-members and talkgroups to which it is distributed to."* Click **OK** to continue. A success message is displayed.

Or

Click **Cancel** to cancel the action.

User Set updates are propagated automatically.

13.5. Manage User Sets Assigned to PTT Users, Talkgroups, or Integrated Users

13.5.1. Assign a User Set

You can assign a user set to PTT Users, Talkgroups, or Integrated Users

Perform the following steps to assign a user set:

1. Select the appropriate User Set menu (PTT Users, Talkgroups, and Integrated Users) from the Navigation Area.
2. Click the **Edit** icon associated with the user or talkgroup to edit.
3. Click the **Assign User Sets** icon.
4. Select the user set to assign.
5. Click the **Assign** button. A success message displays.

User Set updates are propagated automatically.

13.5.2. Remove a User Set

You can remove a user set assigned to PTT Users, Talkgroups, or Integrated Users that you are not a member of from these work areas,

To remove a user set that you are a member of, see ["Remove Members from a User Set"](#) in this document.

Perform the following steps to remove a user set:

1. Select the appropriate menu (PTT Users, Talkgroups, and Integrated Users) from the Navigation Area.
2. Click the **Edit** icon associated with the user or talkgroup to edit.
3. Click the **Tools** icon to see the check boxes.
4. From the Contacts or Members tab, select the check box associated with the desired user set that you are not a member of.
5. Click the **Delete** icon.

User Set updates are propagated automatically.

13.5.3. View User Set Members

You can view the user set members for PTT Users, Talkgroups, or Integrated Users

Perform the following steps to view the user set members:

1. Select the appropriate menu (PTT Users, Talkgroups, and Integrated Users) from the Navigation Area.
2. Click the **Edit** icon associated with the user or talkgroup to view.
3. From the Contacts tab, click the **User Set** or **User Set Member** icon. A drop-down will display all members associated with the user set.

13.6. Assign More than 250 Contacts to Each User through User Sets

The maximum number of users in a User Set is 250. If your organization has fewer than 250 PTT users, you can choose to create just one User Set, make all the PTT users as members of the single user set, and assign all of them to each other as contacts in an efficient way. If, however, your organization wants to assign more than 250 PTT users to each other as contacts, you will need to use the following method.

Note: The scenario used for illustrations below is that your organization wants to assign 500 PTT users to each other as contacts.

1. Create two separate user sets, with each containing 250 members. The two user sets combined cover all 500 PTT users.
2. From the PTT Users *work area*, select a user of the first user set, click the **Assign User Set** button to assign the user to the other two user sets that the user is not a member.
3. Repeat the process above for all the other members of the first user set.
4. Repeat the steps above for the second set.

13.7. View User Set Distribution

1. In the work area, click the **View Assignment to Users & Talkgroup** icon associated with the User Set to view the distribution.

The screenshot displays the 'User Set Assignments' interface for a User Set named 'Plano'. The interface includes a sidebar with navigation options: PTT Users, Talkgroups, External Users, Integrated Users, Interop Connections, and User Sets (highlighted). The main content area shows the User Set Name 'Plano' and a total of 92 Members. Below this, there are filters for Users (3) and Talkgroups (1), and a search bar labeled 'Search by Name or Phone Number'. A pagination indicator shows 'Page 1 of 1'. A table lists the assigned users with columns for Name, Phone Number, and Client Type. The table indicates 'Assigned to 3 Users'.

Name	Phone Number	Client Type
Adrian	+9999200000091	Dispatch
Andy Graves	+9190999999990	Handset Standard
Antony	+9199922222222	Handset Standard

View User Set Distribution

14. Re-sync a Device

After every save operation, the user's device is synced with the server in real time. However, if for some reason the device data is not matching with the data shown on the Central Admin Tool, the Re-Sync operation can be performed.

1. In the **PTT Users** work area, click **Edit** icon associated with the user. The user profile is displayed.

The screenshot displays the 'PTT User Details' page for a user named 'Bob'. The page includes a sidebar with navigation options: PTT Users, Talkgroups, External Users, Integrated Users, Interop Connections, and User Sets. The main content area shows user details such as Name (Bob), Phone Number (+919923434222), Client Type (Handset PTT Radio), Billing Number (+919923434222), State (Activated), Permissions (Administrator and User), Expiring On, Email ID (abcd@org.com), and Authorized User (checked). Below the details are tabs for Contacts (91), Talkgroups (7), and Features. A search bar is present above a table of contacts. The table has columns for Name, Phone Number, Client Type, Remote Supervision, Ambient Listening, and Discrete Listening. The table contains two rows of contact information.

Name	Phone Number	Client Type	Remote Supervision	Ambient Listening	Discrete Listening
Plano					
userset					
Integrated user	+919999966678	Integrated Web	Allow	Allow	Allow
Mark	+919945656604	Handset PTT Radio	Do not allow	Do not allow	Do not allow

Re-Sync Corporate Data from the Work Area

2. Click the **Re-Sync** button to sync the available data to the device. A confirmation window is displayed.
3. Click **OK** to complete the re-sync command. A success message is displayed.

Note: The Re-Sync button is disabled for provisioned and suspended users. It is also disabled if your changes are not saved.

15. Using the Export Operation

This section describes how to export records for a single or all PTT Users, Talkgroups, Integrated Users, Interop Users, and User Sets details using the export operation.

This section is organized as follows:

- [Open CSV File](#)
- [Export User or Talkgroup Details](#)
- [Export Details of a Single User or Talkgroup](#)
- [Export Details of all users or Talkgroups](#)
- [Export User Sets](#)
- [Export a Single User Set](#)
- [Export All User Sets](#)

15.1. Open CSV File

Open a CSV file in the Excel as follows:

1. Open Excel program.
2. Click the **File** tab, and then click **Open**.
3. Browse to the location to where the CSV file is downloaded.
4. Select **Text File** from the **Open** dialog box.

The Open dialog box appears and you select Text Files (*.prn,*.txt,*.csv) from the drop-down in the lower right-hand corner.

5. Browse for the CSV file and click **Open**.

15.2. Export User or Talkgroup Details

15.2.1. Export Details of a Single User or Talkgroup

1. From the work area, click the **Edit** icon associated with the user or Talkgroup in the work area. The User Details is displayed.
2. Click the **Export** icon in the work area. The user or Talkgroup details are automatically downloaded.

15.2.2. Export Details of all users or Talkgroups

1. From the work area, click the **Export** icon in the work area. The user or Talkgroup details are automatically downloaded.

15.3. Export User Sets

15.3.1. Export a Single User Set

1. From the navigation area, click the **User Set** icon. The User Set details are displayed.
2. Click the **Edit** icon associated with the User Set in the work area. The User Set details are displayed.
3. Click the **Export** icon in the work area. The User Set details are automatically downloaded.

15.3.2. Export All User Sets

1. From the navigation area, click the **User Set** icon. The User Set details are displayed.
2. Click the **Export** icon in the work area. The user set records are automatically downloaded.

16. Using the Tool by more than one ADMIN

Multiple Administrators can use the Central Admin Tool at the same time. If one administrator updates the data, the changes by another administrator will not be accepted and the second administrator will see, *“Data is updated by Another admin. Please refresh the page to get the updated result.”*

17. Troubleshooting

This section describes common issues that have been identified and their corrective action.

This section is organized as follows:

- [Log In Issues](#)
- [User Interface Issues](#)
- [Manage Contacts Issues](#)
- [User Set Issues](#)
- [Generic](#)

17.1. Log In Issues

After I login, I don't see any users in the landing page of PTT Users.

Please contact your service provider. There may not be any PTT users added to your corporation.

When I login, I get an "Invalid Corporate Id" error

Please contact your service provider. Your corporation may not have been set up correctly.

17.2. User Interface Issues

When I click on the Central Admin Tool link nothing happens.

Enable pop ups on your browser. Refer to the Ensuring Correct Display of the Web Site section of this document for more information on how to enable popups in your web browser.

The layout of Tool is not displaying properly and some UI Components are not functioning properly.

Please make sure you are using the right version of the browser. Refer to ["Required Browsers"](#) for more information.

Also if you are using IE11 and above check whether compatibility mode is turned off. IE 11 has a caching issue which always selects the cached data to display. Clear the browser cache to avoid loading saved UI which does not take the latest updates. Also make sure that the zoom is set to 100%. Refer to ["Reset Zooming"](#) for more information.

I can't re-sync. The button is disabled.

Save your changes by clicking the **Update/Save** button.

The Update/Save button is disabled.

There are no changes to save.

Why don't I see the Authorized User Checkbox?

1. The user has not purchased a package with emergency feature in it.

Resolution - Please check with your provider to add either Business Critical or Command package to the user

2. The user's handset is using a legacy client prior to 9.0 release.

Resolution - Request the user to upgrade the handset client.

I can see multiple incorrect numbers for one contact under “Assign Contacts” block.

Check for any Skype extension Add-ons in your browser. If this add-on is enabled, disable it and refresh the page. To disable the add-ons do the following:

1. If you are using Chrome browser, then click the more option in the top right of the browser. Go to **More tools-->Extensions**.
2. If you are using IE, then click Setting icon on the top right corner and select **Manage add-on**. Select the Skype extension Add-ons and disable.

17.3. Manage Contacts Issues

I can't delete an assigned user. The button is disabled.

Select the corresponding checkbox to select the user to delete and click on delete icon.

I can't generate activation code for multiple PTT users. The button is disabled.

Select bulk operation and select the corresponding checkbox to select the user and click on generate activation code icon.

I selected Bob and gave him Jen as contact. But when I select Jen, I don't see Bob as her contact.

The assignment of contacts does not work both ways. For this example, select Jen and manually assign Bob as a contact to her from the Manage Contacts tab.

17.4. User Set Issues

I added Sofia to a User Set where Bob is also a member. Bob got Sofia as contact, but Sofia didn't get Bob as a contact. Why?

External User's contacts and talkgroups are not managed by you. They are managed by the administrator of his or her corporation. You do not have the rights to push any contacts or talkgroups to an external contact. Contact the external user's administrator to perform the reverse assignment.

I created a user set titled “East Zone” but the handset of the members do not show that user set. Why?

A User Set's visibility is in the Central Admin Tool only. The members of the user set get each other as contacts, thus each member of “East Zone” will get all other members as contacts.

17.5. Generic

I gave the permissions to User 'A' to perform the Ambient Listening on User 'B'. But User 'A' is not able to Ambient Listen.

1. User 'B' may be using a legacy client prior to 9.0 release.

Resolution - Request the user to upgrade the handset client.

2. User 'B' may be using the application in standard mode.

Resolution - Change the User 'B's user type to "Standard" from "PTT Radio" if ambient listening is required on User 'B'.

I changed the mode from "PTT Radio" to "Standard" and now the emergency calls are not working.

In order for the emergency call to work in standard mode, user has to have a destination contact or talkgroup assigned.

I have setup the user where Authorized User can start or cancel the emergency remotely. But now the Authorized User is not able to start the emergency. What went wrong?

In order for the remote emergency call to work, the destination contact or talkgroup has to be set for the user.
